

Kidnapped Priest Slain

Business Revival Wave Now On The Way

Kidnapped Priest Found Murdered

Body Concealed In Cliffside Grave

REPORTS FROM ALL OVER THE UNITED STATES SEEM

TO INDICATE BUSINESS WILL PICK UP BY FALL

SEARCHING PARTY, FOLLOWING CLUE DROPPED BY DRUNKEN FOREIGNER, FINDS LONELY GRAVE OF FATHER HESLIN, KIDNAPERS' VICTIM. SIGNBOARD GIVES CLUE TO HIDING PLACE OF BODY.

By M. D. TRACY
(United Press Staff Correspondent.)

San Francisco, Cal., Aug. 11.—Father Patrick Heslin, kidnapped priest of Colma, Cal., has been found, murdered. Six men early today dug the crippled body from a rude grave in a tiny grove on the cliff near Salada Beach, three miles south of San Francisco. Not a man in the party knew Father Heslin in life but identity was made certain because the body was shrouded in a clerical garb of broadcloth. On the girdle was a medal bearing the likeness of Christ on one side and on the other the Blessed Virgin Mary. In a little velvet case was found the Sacred Host Father Heslin had taken from his home in Colma a week ago last Tuesday for use in the last sacrament which he had been called to administer by his kidnapper to a "dying friend."

Papers found on the body included a railway rate schedule, garage bills, and bills of lading for furniture and similar articles.

Meagre Clue Led To Discovery.

William Hightower, a mechanic, furnished the clue which brought about the discovery of the rude grave, and himself led the party of searchers. Hightower found the grave through a story told by a woman known to police as Dolly Mason, of Salt Lake City, whose suspicions were aroused by the disconnected statements of a drunken foreigner. "You'd better be afraid of this gun," he told her. "It's killed a man, but he is not alone. Beside his grave sits a man frying pancakes."

Hightower found the grave beside a sign well known in the West—that of a "desert rat" frying pancakes over a tiny mesquite blaze.

STICK TO HORSESHOES NEXT

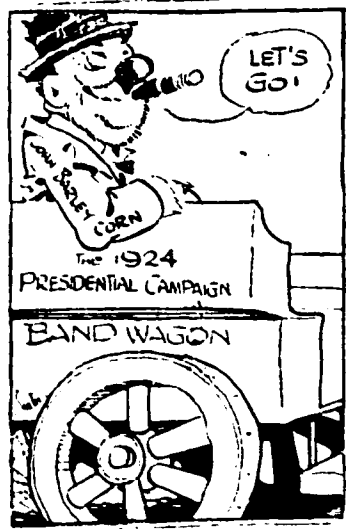

Ridgway, Pa., Aug. 11.—Henry Huber, Grant Road farmer, tried to beat a B. R. & P. passenger train over a crossing today—and failed. As a result, Huber is shy an automobile and had a very narrow escape from instant death. His car was hurled thirty feet and practically demolished.

Huber was uninjured, it was found after he had been dug out of the remains, with the exception of painful bruises and lacerations.

WANT TWO MILLION FOR RUSSIA RELIEF

Washington, D. C., Aug. 11.—A bill appropriating \$5,000,000, to be used by the President in extending relief to famine stricken Russia, was introduced into the Senate today by Senator King, of Utah.

Dr. and Mrs. L. R. Browne and daughter Virginia left this morning for a two weeks' trip to Atlantic City.

ASK OPEN DISARMAMENT CONFERENCE

Senate Independents Start Campaign To Force Open Sessions In Coming Disarmament Parley In Washington.

Washington, D. C., Aug. 11.—A double barreled campaign for open sessions in the forthcoming Disarmament conference is on here today under the leadership of Senator Hiram Johnson, Senator Borah and other Senate Independents. The campaign will include speeches in the Senate and public statements, in all of which the advocates of public sessions intend to assume that the administration will support the open session demand. Second, private conferences with administration officials and those who have the ear of administration leaders in which it is assumed that the administration will not support an open session.

The first phase of the campaign is intended to influence public opinion and get the American people to expect an open conference.

Formal Call Issued.

Washington, D. C., Aug. 11.—President Harding's formal call for the Washington Disarmament and Pacific Conference, was sent out today to the various powers invited to participate in the conference. Secretary of State Hughes will make public the text of the call later.

Harding Favors Publicity.

President Harding favors publicity for the conference, though not to the extent of opening all of its deliberations and sessions to the public as demanded by the two Senators.

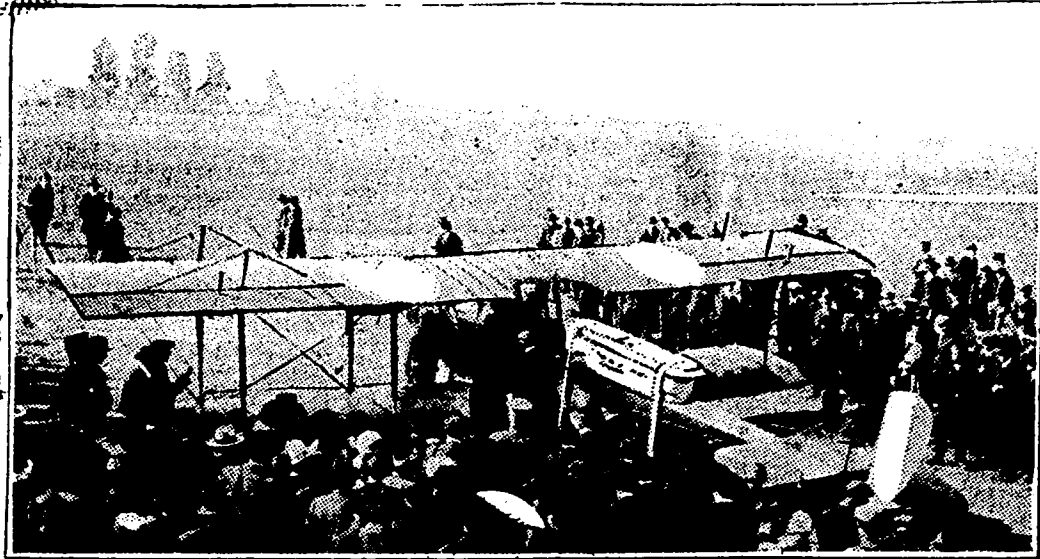

DESPONDENT—MAN HANGS HIMSELF

Pittsburgh, Pa., Aug. 11.—Carl Wendler, aged 35, committed suicide by hanging himself at his home here today. Despondency over injuries received in a recent accident, is believed to have been the cause.

125 FAMILIES HOMELESS

Ottawa, Ontario, Aug. 11.—A great portion of the little town of Aylmer, Quebec, is in ruins today, and 125 families are homeless as the result of a fire which broke out last night. Latest estimate places the damage at one million.

Airplane as Hearse

This is said to be the first airplane funeral ever held in America. The coffin of an American aviator is shown on the plane which transported it from the aviator's home, in the middle west, to the cemetery. Permission to take this photograph was given on condition that no name or location be given, as members of the family had arranged the private funeral simply as a fitting tribute to a hero.

Vampire Woman Responsible For Death Of California Insurance Agent

Modern Vampire Who Sought To Force Betrayer Into Marriage Accused On Complicity In Slaying.

Los Angeles, Cal., Aug. 11.—A vampire who shot to force one of her victims to give a name to her unborn child. That is the picture the state will draw of Mrs. Maddalynne Obenchain here today when it asks indictment of the woman on a charge of complicity in the slaying of J. Belton Kennedy, an insurance broker.

Authorities will attempt to show that Mrs. Obenchain is about to become a mother, through the result of her associations with Kennedy—that he refused to marry her, and was shot by Arthur Burch, also held in connection with the killing. In evidence of the woman's great magnetism will be presented the fact that Burch, to whom she has referred as only a platonic friend of her college days, hurried across the continent in response to a single telegram saying "Things look bad. Please come at once. Maddalynne."

The state will contend that Kennedy, who was stronger willed than Burch, attempted to extricate himself from the web Mrs. Obenchain had woven about him, and was shot by Burch when he refused to listen to the latter's pleadings to marry Mrs. Obenchain.

GERALDINE HAS THE EVA TANQUAY HABIT NOWADAYS

New York, Aug. 11.—Geraldine Farrar slammed the door in the face of the public here today. There will be no reconciliation between the beautiful songbird bride and America's noted actor, Lou Tellegen, according to Farrar's attorneys.

It will be a fight to a finish, but it will be in the courts. If the public doesn't like it the public can—well, Geraldine just doesn't care. She is going to deal what what she calls her "arrogant" husband in her own way.

Boy Scouts Help Out In Big Barn Raising Tuesday

Farmer Sends Out S. O. S. And Scouts Respon

You have got to hand it to those Boy Scouts. They can take a hand at anything nowadays. On Tuesday last Fred Weaver, a farmer living on the old Jacob Barger place, was raising a barn. His crew was a little light for the purpose and some one suggested that a messenger be sent to

Camp McPherson, with an invitation to come up and help raise the barn. A healthy part of the Scout creed is service to others and Captain Snively and his crew were on the hike for that barn raising almost before the "inviter" had finished his invitation.

The boys were quickly on the scene and that barn frame went up in jig time and the happy farmer couldn't find time enough in which to express his thanks. He fed the gang well and they hustled back to the camp in the evening, tickled to death with their experience.

STREET CARS EMPTY IN THREE LARGE CITIES

Bay City, Michigan, Aug. 11.—This city and its neighbor, Saginaw, took the jitney route to work today. Every street car in the two cities, at a given signal last midnight, was rolled into the barn and will remain there until further orders from the United States District Court, which yesterday threw the street car company into the hands of a receiver.

Busses Ruin Street Car Trade. Bridgeport, Conn., Aug. 11.—Bridgeport today solved the traction problem. Approximately 220 busses rolled past empty street cars during the rush hours here today, carrying 15,000 "club members" to work. The president of the Buss Association declared that within a few months more trolley fares will have to come down or the street cars go out of business. To get around a bill recently passed by the Legislature, "clubs" were formed, and as the busses cannot collect fares, "members" present tickets for each ride.

San Francisco Docks.

San Francisco has dock facilities sufficient for the accommodation at one time of 250 vessels of average size.

NEW YORK STOCKS

New York, Aug. 11.—Baldwin Locomotive 72 7-8, Baltimore & Ohio 36, B. & O. preferred 50 1-4, Bethlehem B. 48 3-8, Central Leather 30 1-2, Crucible Steel 52 7-8, Erie 12 3-4, General Electric 113 1-4, General Motors 10 1-8, Lehigh Valley 51 5-8, Middle States Oil 10 7-8, Oklahoma Producers 1 7-8, Pennsylvania 37, St. Clair Oil 18 1-4, United States Steel 73 1-2, Willys-Overland 6 5-8.

MAN ATTEMPS TO KILL HIMSELF

Punxsutawney, Pa., Aug. 11.—Several hours after he had received word from his wife in Dallas, Texas, that she had given birth to a baby, Andrew Filberg, of Dallas, was found along a road in a critical condition. A box of rat poison was found near Filberg. He may recover.

BANDITS GET \$5,000

New Kensington, Pa., Aug. 11.—Armed bandits escaped today with \$5,000 in valuables, after binding and gagging M. Saunders, proprietor of a jewelry store here. Saunders told police he was showing a "customer" a tray of diamonds when a bandit with a leveled gun entered the place and forced him into a back room. The "customer" then hit him over the head, rendering him unconscious.

TELEGRAPHIC ADVICES FROM VARIOUS PARTS OF THE COUNTRY ARE MOST OPTIMISTIC IN THEIR WORDING. BUSINESS DIAGNOSTICIANS HOPEFUL.

By HAROLD D. JACOBS
(United Press Staff Correspondent.)

New York, Aug. 11.—Basic business conditions are improving. This opinion was reflected in telegraphic statements to the United Press today by commercial organizations—diagnosticians of economic ailments—in all parts of the country.

The general feeling appeared to be that the industrial revival will be well under way by fall, although some were inclined toward the belief that material progress will not be made in that direction before spring.

Represented in the symposium were New York, Chicago, Boston, Bridgeport, Atlanta, Memphis, Indianapolis, Milwaukee, St. Paul, St. Louis, Dallas, Denver, and Portland, Oregon.

LOCAL BANKERS TACKLE FARM STOCK PROBLEM

Appoint Committee To Co-operate With Farmers To Bring In Pure Bred Stock. Will Meet Soon.

Representatives of a number of banks in the county held an enthusiastic meeting in The Dimelig Hotel in Clearfield, Monday, Aug. 8th. Clearfield County like many other Pennsylvania counties is primarily an industrial county, which is fast depleting its resources for the present. The bankers of the county realize better than any one else, except the farmers themselves, what this means to the future development of the county. They realize that agriculture is the true basis of development in any community, and unless better live stock is produced, the farmers will not be able to follow their profession with profit to themselves, which alone will tend to create the desired country spirit.

E. B. Harshaw, cashier of the Grove City National Bank, R. R. Welch, and Professor Tomhave of State College, addressed the bankers on the importance of pure bred live stock, and the profit that can be derived over the use of scrub animals, as well as the radical change in community development, brought about in places where the pure bred live stock industry has been promoted.

Ways and means were discussed at the meeting whereby the banks could work in co-operation with farmers of the county in bringing in pure bred live stock, and with this end in view, a committee on organization was appointed, consisting of H. B. Powell, County National Bank, Clearfield; James Mitchell, Clearfield National Bank, Clearfield; M. I. McCreight, Deposit National Bank, DuBois; Mr. McCracken, Mahaffey National Bank, Mahaffey, and Mr. Russell of the Clearfield National Bank. This committee will meet within a short time to formulate a definite, sound plan, which it is hoped will place Clearfield county among the foremost live stock counties in the State.

LOCAL ATTORNEY "IN"

Harrisburg, Pa., Aug. 11.—The Bureau of Elections in the office of the Secretary of the Commonwealth, was swamped today with nomination petitions. Today was the last day for filing of papers for the final primaries. 55 names appeared as delegates to the constitutional convention. Among these was that of Americus Woodward, of Clearfield.

"A better tone is appearing in the business world," declared William Fellows Morgan, president of the Merchants' Association of New York, who discussed the country-wide situation as well as conditions in this district.

"Although few industries have yet benefited by an increased volume of business there are indications that the country is beginning slowly to pull out of a serious business and industrial depression.

"The crop outlook, with one or two exceptions, is good. Many of the railroads are reporting increased earnings.

"Rediscount rates of the federal reserve banks have been lowered and there are other indications of easier money. Price revisions in many lines have proceeded rapidly and prices of certain commodities are even showing a slight increase, indicating a stabilization of prices.

"Deflation in building materials is proceeding slowly. Coal production has declined somewhat.

"The large stocks of goods in the hands of merchants last year have now been greatly depleted, making it necessary during the coming months for them to buy on a much larger scale."

Tide Turns In New England.

That the "tide has turned in New England," was the statement of Melville E. Liming, secretary of the bureau of commerce and industrial affairs of the Boston chamber of commerce.

"Orders and inquiries are coming in and while there is still plenty of room for improvement a more optimistic tone generally prevails," he said.

Other statements were: Seward H. Price, secretary Bridgeport Chamber of Commerce: "Business in the Bridgeport district is picking up steadily. We ought to be tasting real prosperity before winter."

Atlanta Chamber of Commerce: "Business in this section looks better today than in many months. In practically every line conditions justify a more optimistic feeling for the fall."

J. M. Walker, president of the Memphis Chamber of Commerce: "Diversification of crops has saved the south from bankruptcy, and will mean prosperity for this section. Fall will witness a great revival in trade and industry."

John B. Reynolds, secretary Indianapolis Chamber of Commerce: "I believe conditions will begin to improve in the fall. However, it may be a year before business is wholly on a normal basis again. Some factories are increasing their forces even now."

W. L. Ware, trade commissioner, Chicago Association of Commerce: "Fundamental business conditions in Chicago point toward improvement in practically all lines. Recovery is noticeable in dry goods, millinery, women's and men's clothing, shoes, and building materials.

"The feeling is gaining strength each day that we have reached the

Only by your attendance at these games can our classy bunch of players be supported. Friday and Saturday is your opportunity to put your shoulder to the wheel. Load up your "Flivver" and head for Clearfield Friday and Saturday.

ODDS AND ENDS AND THINGS

"By Skinny"

The price of sugar locally went up a cent or more the past couple of weeks, due no doubt, or so "they say," to shortage somewhere, but look at this—

More than 2,000,000 tons of sugar, or half of a year's supply for this country, will be carried over into next year's stocks here and in Cuba, according to a statement issued yesterday by the Federal Sugar Refining Company.

This estimate is based on the fine showing of this year's Cuba crop, the promise of a large domestic beet crop and the improved Louisiana cane crop.

The large carry-over, together with the 1921-22 Cuban, Porto Rican and other cane crops, will make the problems of the sugar industry in 1922 unprecedented, said the Federal Company's review.

The statement added that refiners will be forced again to reduce their prices or to accumulate refined stocks, and that the sporadic demand that has been apparent will soon be satisfied.

What are we going to do about it? Clothiers and haberdashers say that men are growing heads and necks like vegetables these days. That is men's necks are growing smaller, while their heads are getting large like unto an inverted onion. At least that is the report from Ohio. One hat dealer says he knows men's heads are getting larger from the sizes of hats he is now required to keep in stock as against those sizes of previous years, while a second dealer in commenting on the first statement says: "I can substantiate his statement and also add that their necks are getting smaller. As a clothing store manager and buyer I have noticed this: Ten years ago the best selling shirt and collar size was 15½. Five years ago it was 15. Today it is 14½. We sell many 13½ men's shirts, a size that was not made a few years ago."

What do you know about it?

Just one confounded thing after another makes the thirsty thirstier in

this land of the free. Now the fire insurance companies may raise the rate on all dwellings where remote beer is brewed or alleged wine is concocted.

"Householders who are persistent offenders in the manufacture of home brew may well watch their step in the face of reports that an extra rate will be imposed on all dwellings thus used for manufacturing purposes."

A New York girl has gone into the courts to secure "heart balm" from another "young lady," who, masquerading as "Jack Brown," wooed the fair prosecutor for two years and finally won her consent to a wedding. The date was set but "Jack" failed to appear and when the expectant bride-to-be went to "Jack's" home at Monticello, N. Y., to see what the trouble was, she found her "Jack" was a "Jill," and now the young lady wants to be paid for being deceived.

Those "wet" Senators could not kill off the anti-beer bill, but they satisfied their liquid consciences by injecting into the Supplemental Enforcement Bill the following, for the bene-

fit of the fellow who moves his little still from the side of the hill and takes it into the house:—

"That any officer, agent or employee of the United States engaged in the enforcement of this act or the National Prohibition Act or any other law of the United States who shall search or attempt to search the property or premises of any person without previously having a search warrant as provided by law shall be guilty of a misdemeanor and upon conviction thereof shall be fined not to exceed \$1,000 or imprisoned not to exceed one year, or both so fined and imprisoned in the discretion of the court."

Any person not a duly authorized officer, agent or employee of the United States who under color or claim to be acting as such in the enforcement of this act or the National Prohibition Act or any other law of the United States subjects or causes any person to be subjected to the deprivation of any rights, privileges or immunities secured or guaranteed by the Constitution of the United States shall be deemed guilty of a felony, and upon conviction thereof shall be punished by imprisonment for a period of not

Business Conditions Improvement

(Continued from Page One)

bottom of the period of depression and may now reasonably expect business to be very much better this fall."

F. W. Dickey, economist of First Wisconsin National Bank, Milwaukee: "With retail prices at a new and fairly permanent low level, with stores cleared of surplus stocks, with cheaper raw materials, with lower wages and with the banking situation on a firmer basis, American industry is pre-

paring to do business again."

E. G. Guamme, president of the St. Paul Federal Reserve bank: "Generally speaking, we have a fair crop in the northwest which, if sold at once, will make business conditions better."

R. D. Sangster, industrial commission, St. Louis Chamber of Commerce: "The wholesale market is full of out of town merchandise. Shoe manufacturers have a capacity demand. Industries generally report prospects bright for a good revival of business."

Secretary Black, Dallas chamber of commerce: "Conditions in the south farm money and credits loosen up. Good grain and fruit crops are bringing fairly good prices. Building so far this year beats the total of the last two years."

Portland, Oregon, Chamber of Commerce: "Merchants are stocking their shelves for a good winter in the belief that the heavy crops will result in plenty of money. The future outlook is bright."

Milton's Mulberry Tree. A cutting from a mulberry tree planted by John Milton at Oxford has been planted in the grounds of Milton's cottage at Chalfont. It is a pretty sentiment which inspired such an act: a tribute to the great poet which he would have been the first to appreciate. Having fled from London to this quiet Bucks village, he there put into the hands of friend Ellwood the completed "Paradise Lost." "He had him take it home," read it at my leisure," says Ellwood, "and when I had so done, return it to him with my judgment thereon." Leisure is the spirit of this quiet cottage, with its wealth of climbing roses; the mulberry tree from Oxford will be an added charm in the coming years in this place of literary pilgrimage.—Christian Science Monitor.

LET'S GO

Postmaster General Hays, in a recent address at a Rotarian luncheon apparently hit the nail on the head when he declared "Let's have less of 'thou shalt not' and more of 'Come on' and 'Let's go'."

"There's a lot of business that really is sick, still staggering with the shell shock of war and the debauch of extravagance," said the postmaster-general. What we need is the common sense of courage and confidence. There is the greatest era of expansion and prosperity ahead the world has ever seen. Everyone knows this and the only question is when it will start. Well, it's time to go out and meet it."

Which in a very few words about sums up the situation in a way infinitely more plain than hundreds of experts have been able to get it over. A little more "Come on" and "Let's Go." A pretty simple prescription, but one that seems to fill the requirements in every particular.

SIMMONS ESTOPPED

One of the strongest supporters of the Republican farmers' aid bill was Senator Simmons, Democratic leader of the Senate. Simmons is not only an uncompromising Democrat, but a Southerner. In his speech supporting the bill, he said, "There is nothing in the world today in which I am more interested than in relieving the situation which I know my people are in. My sole purpose is to get legislation here which will accomplish the object I have in view, and I am going to vote without reference to party or without reference to personalities." When Mr. Simmons thus heartily commends the Republican measure for relief of the farmers, he will scarcely be in a position to criticize his constituents if they also "vote without reference to party" and help re-elect the candidates of the party that fathered the legislation he commends.

A MATTER OF COMPROMISE

It is to be expected that there will be many changes in the tariff bill in the Senate. Such was the purpose of the founders of our form of government when they provided two houses of Congress. After the tariff bill or any other bill has been formulated and discussed and amended in one house, it goes to the other, after having been printed and made available for the perusal of the public. Many people will have suggestions to make, with the result that the measure can be much improved before final passage. Legislative business be greatly expedited if there were only one House of Congress, but the speed would be at the sacrifice of quality.

A LEAK IN EVERY JOINT

Just as soon as the Republicans figure out a plan to save a hundred million, they discover another transaction of the Wilson administration that calls for an expenditure of two hundred million.

Force in Writing.
The secret of force in writing lies not so much in the pedigree of nouns and adjectives and verbs as in having something that you believe in to say and making the parts of speech vividly conscious of it.—Lowell.

Enough Said.
Frequently a question contains its own answer. Such a question was the one put recently by Kansas young woman who had to qualify for a position as teacher. Feeling that she had not been considerably dealt with, she wrote: "I think I am entitled to an explanation of why I failed, anyway."—Boston Transcript.

Cotton-Plant Pest.
The moth known as Alabama argillacea, a serious pest of the cotton plant, is one of the most prolific of insects. In the Gulf states it produces at least seven generations annually, and at the end of the fourth generation the progeny of one moth, if they all survived, would amount to over 300,000,000,000 individuals.—Science Service.

Some Peculiar Trees.
Among the many peculiar trees of Australia are found the flame-trees, rising nearly 100 feet; the fire-trees, the only tree that blossoms scarlet red; and Indian figs, a wonderful lofty tree of graceful form and brilliant color.

Ancient Iron Currency.

Sword-shaped bars of iron were used by the ancient Britons as money, and many of these are now found in British museums. A recent investigation shows that six different denominations were used, distinguished by their sizes.

Lines to Be Remembered.

"I can forgive, but I cannot forget" is only another way of saying, "I will not forgive." A forgiveness ought to be like a canceled note, torn in two and burned up, so that it never can be shown against the debtor.—Henry Ward Beecher.

What Is Every Mother's Hope For Her Children?

Sturdy, energetic children radiating health, are a source of pride and joy to their parents. And their development depends largely on their food.

Children, undernourished and unwisely fed are weak and unhealthy, and many times anemic. Disease easily grasps them, for their undeveloped constitutions are unable to resist the disease germs.

No food will have greater influence in making your children vigorous and healthy than Grape-Nuts. Served with milk or cream, Grape-Nuts is an ideal body, brain and nerve food. It is made from wheat and barley. Grape-Nuts offers a high food value, and it is as delicious as it is healthful.

Children find delight in the crisp, sweet richness of Grape-Nuts.

A dish at breakfast or lunch for a few days and you'll agree "There's a Reason" for Grape-Nuts. Nutrition and economy combined.

Ford
THE UNIVERSAL CAR.

There Is To Be No Chanc In The Models Of Fords

Our attention has been called to recent newspaper articles to the effect that there is to be a new model Ford car on the market August Fifteenth with a change in design to a ventilating windshield and one man top. AS WE DO NOT CONTEMPLATE ANY SUCH CHANGES AND THERE IS NO FOUNDATION TO SUCH RUMORS WE HAVE NO HESITANCY IN MAKING A DENIAL OF THE REPORT.

Burgers Easy Meat For The Terriers Wednesday

LOCALS HAMMER IN ENOUGH RUNS EARLY IN THE GAME TO PUT THE BATTLE ON ICE. SERIES NOW STANDS THREE APIECE, WITH ODDS IN FAVOR OF CLEARFIELD.

Manager Hoffman's Clearfield Terriers won an easy victory over Philipsburg at the driving park yesterday afternoon, the game ending Clearfield, 7; Philipsburg, 4.

Meador Pitches Fine Ball.

Johnny Meador was Hoffman's pitching selection and he was right there with "the goods." He held the visitors to six hits and didn't have to extend himself much in doing that.

How The Runs Came.

Philipsburg got the first run of the game in the second inning on a double by Bedink and a single to center by Fagan. Meador then held them scoreless until the ninth, when he eased up a little and three enemy runners patterned across the rubber. In the ninth Bedink was safe on Russell's error and Fagan walked. Palm hit to Russell and was out at first. Cooley flied out to center. Crago was hit by the pitcher. Horter singled, scoring Bedink and Fagan. Moradas singled and Horter scored. Donnelly ended the game with a fly to Kane.

Horter Was Very Wild.

Manager Louder sent Bill Horter in to do the twirling for Philipsburg. Bill's "spitter" wouldn't behave to his liking and he couldn't get them over. He walked eight men and our sluggers nipped him for ten solid swats when he did get the ball in reach. Anderson opened the game with a single and went to second on Russell's sacrifice. Yerkes singled, but Harris hit into a double play, retiring the side.

Two Runs In Second.

In the second Hoffman and Zerfah walked and successive singles by Bedink and Hopper scored them both. Yerkes, Harris, Kane, Meador, Don-

nelly. Stolen bases, Hoffman, Crago and Ullery. Double plays, Palm to Donnelly, Fagan to Ullery, Ullery to Fagan to Donnelly. Bases on balls, off Horter, 8; off Meador, 2. Struck out, by Horter, 1; by Meador, 7. Left on bases, Clearfield, 9; Philipsburg, 7. Umpires O'Donnel and O'Rourke. Time of game one hour and 55 minutes. Attendance, 1,200.

PICKED UP

The Reedsville Second Team defeated the First Team on the Reedsville grounds Tuesday evening in a hotly fought battle, the final tally being 8 to 6. The fans captured the first team manager, Cy Woodel, and rode him on a rail after the game.

The baseball fans of Ridgway and Johnsonburg have joined St. Marys in giving up the ghost and unless something unforeseen now transpires, the strong Elco team will give up the ghost for the season of 1921 after Sunday's game at Johnsonburg.

The DuBois Pirates, under Bill Feeley's management, play Indiana today. Wolfe is playing third for DuBois.

The Elcos defeated the Allegheny Steelers at Osceola yesterday afternoon in a hotly contested game by a 5 to 3 score.

Brookville defeated Clarion yesterday afternoon, 6 to 3.

The Elcos are playing the Allegheny Steelers at Houtzdale this afternoon.

The Clearfield Terriers are playing at Philipsburg today and will entertain the Elcos at the driving park here both Friday and Saturday afternoons. The Elcos, with the addition of Shaw, Callahan and Hershey of the Oil City's, are a much stronger team now than when they were last here and these games should prove to be the best of the season.

The injury to Seigfried is a big loss to the team. "Seig" was a very valuable man, both on the offense and defense and his place will be hard to fill.

"Frantic" O'Rourke had a "seed in his eye" on those first base decisions yesterday afternoon. It shortened the game, however.

The Oldest Feast.

The Jewish Feast of the Passover is the oldest religious celebration known to mankind. It had its birth on the banks of the Nile 4,000 years ago in the twilight of history. The feast, an impressive function, lasted through eight days.

Everything for QUALITY -nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

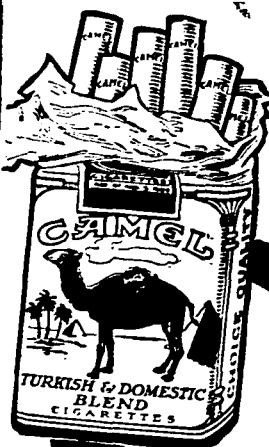

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Clearfield County Medicos Hold Outing Wednesday

HAVE ROUSING TIME AT THEIR ANNUAL PICNIC AT THE CLEARFIELD COUNTRY CLUB—EXCITING BASEBALL GAME—GOOD EATS—'N EVERYTHING.

The Clearfield County Medical Association held their annual picnic at the Clearfield Country Club yesterday. The physicians and their families to the number of one hundred enjoyed the occasion to the limit. They ate, and were merry all day long.

An exciting baseball game between the fat doctors, captained by Dr. J. S. Miller, of Madera, defeated the skinny fellows under the direction of Dr. John W. Gordon, of Clearfield, in an exciting game, which was called in the fifth inning to allow all hands to attend the Clearfield-Philpsburg ball game at the park. The score was 67 to 7 in favor of the "fats" when hostilities ended.

The only casualty occurred in the

fifth when Dr. Ward O. Wilson, of Clearfield, the Babe Ruth of the fats, tripped with the bases full of fat fellows and removed six inches of trou-ser leg and an equal expanse of epidermis from the region of his right knee in attempting to slide into home on the hit. The fats were too much out of puff from running bases to help their fallen comrade, the leans were too hot under the collar to do so, and an obliging chi or "punch doctor" rendered first aid.

It was some party and some game.

How to Tell.

It is quite easy to tell how long a man has been married by the way he speaks to his wife. If he says "My darling wife," that means three months; "wifey," six months; "the wife," one year; "Mrs. Blank," two or three years; "the missus," five or six years; "mother," seven years; "my better half," ten years; "the old lady," twenty years; "grandma," twenty-nine years; "Mrs. Blank," forty-two years; "Jane," fifty years.—Portland Oregonian.

Tracing History of Cabbage.

The Romans are credited with introducing cabbage into England, and the soldiers of Cromwell carried it to Scotland and made it popular there, as they did also in Ireland, according to tradition.

Twenty-Five Years of Nervous Ills Quickly Banished By Nerv-Worth

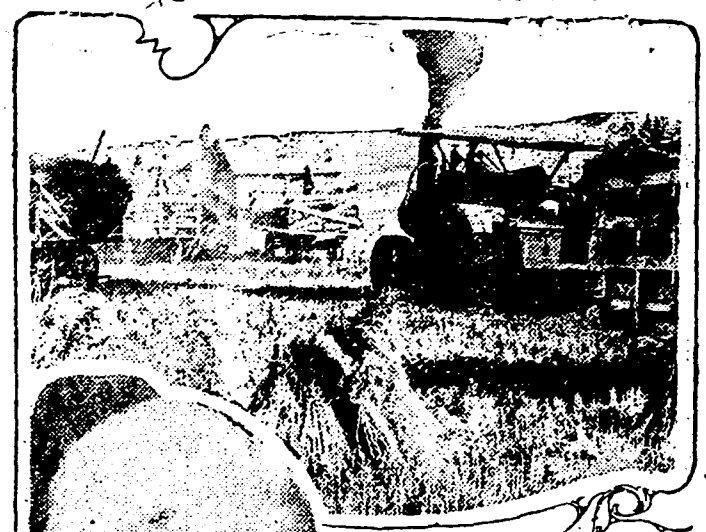

Washington Man's Remarkable Recovery—All Credit to This Famous Home Remedy.

"For 25 years I was troubled with a nervous condition," said H. H. Riddle, 210 W. Spruce street, Washington, Pa., and he continues: "I lost weight and was troubled with gas after eating. I tried various remedies, but got no relief. Nerv-Worth was recommended to me by so many who had used it that I thought I'd give it a

trial. It helped me wonderfully, for my nervousness is all about gone, and I have no further trouble with my stomach or gas. I am gaining in weight and strength right along. I can recommend Nerv-Worth to any one and feel that it will help them. If your nervous condition is bad, your whole system will show the effects of it. Don't drag along in a life of misery, but let this famous home remedy, Nerv-Worth, help you back to the paths of good health.

EXPERT WARNS OF LEGAL PERILS LURKING IN GRAIN POOLING PLAN

NEW CROP CAN'T WAIT

"To provide special funds for the carrying out of the purposes" of the new marketing organizations. He believes this would permit any charge, from exorbitant salaries to huge organizing expenses to be taxed against the farmer's grain. Mr. Winters made the analysis after inquiries from many farmers who had studied his previous analysis. He advised them to go over the contracts with their attorneys before binding themselves to co-operative marketing under a plan that might allow unlimited charges as "cost of handling." He called particular attention to contract section twelve.

Mr. Winters who has devoted years to study of grain marketing, found the plan "economically unsound" and characterized hedging facilities of the Chicago Board of Trade and other exchanges as essential in assuring farmers full value for grain. The new system, he said, attempted to duplicate present machinery with inexperienced employees.

Art and Power.

Art and power will go on as they have done—will make day out of night, time out of space, and space out of time.—Emerson.

Got Name From Its Tail.

The squirrel derived its name from its tail. The word comes from the Greek skivros; skis, a shadow, and oura, a tail. So that a squirrel is the animal which shades itself by its tail.

NEWS OF OUR NEIGHBORS

Grampian Picnic On August 13th

The big Grampian picnic will be held in the beautiful grove near the church on Saturday, August 13th. Preparations are being made on a large scale for the event and the largest crowd in the history of this old time picnic is looked for.

The hospitality of the Grampian people is well known and those who attend this picnic are insured a good dinner, the best of treatment and a good time.

In addition to the dinner and refreshments dancing will be indulged in by the young people, while Grampian's famous cornet band, one of the very best bands in this entire region, will discourse sweetest music during the afternoon and evening.

The Grampian Hills country was one of the early settlements of note in Clearfield county and is "home" to many families throughout this section, who will take advantage of this occasion to once more roam the Grampian Hills.

The Art of Life.

The art of life is to keep step with the celestial orchestra that beats the measure of our career, and gives the cue for our exits and our entrances. Why should we willingly miss anything, or precipitate anything, or be angry with folly, or in despair at any misadventure? In this world there should be none but gentle tears, and fluttering tip-toe loves. It is a great carnival, and amongst these lights and shadows of comedy, these roses and vices of the playhouse, there is no abiding.—G. Santayana in the Dial.

How Logansport Was Named.
Among the relics preserved at Terre Haute, Ind., is a target rifle that was, it is said, the means of giving Logansport its name. The story is that a number of frontiersmen, being unable otherwise to reach a decision in the matter, decided to shoot at a target to determine what name should prevail. The marksman who proposed Logansport hit the bull's-eye.

Herman Hoffman

THE KITCHEN CABINET

"Dine well and wisely and the cares of life will slip from you; its vexations and annoyances will dwindle into nothingness."

HEALTH VALUE OF FRUITS AND VEGETABLES.

Vegetarian schools have great faith in tomatoes as a medicine for biliousness and all forms of liver trouble; this is because of the vegetable calomel in large quantities which is found in that fruit.

Rhubarb or pie plant, when properly cooked, is a good laxative, while its agreeable acid is cooling and stimulating. The tender green leaves, combined with other greens, are especially good served as greens. Lettuce is considered a sure remedy for nervousness and insomnia. Even Shakespeare has one of his characters remark: "Did I eat any lettuce to supper last night that I am so sleepy?"

And of water cress, "a cheap but wholesome salad from the brook." Containing so much sulphur, this dainty little green tends to purify the blood. This sulphur, in vegetable form, is all ready to be assimilated, while the form we buy is not.

Dandelion greens carry a high percentage of iron, while the tender young leaves make a fine salad. Mixed with potato, it improves both kinds. Spinach, which is called the broom of the blood, stands at the head of vegetables in percentage of iron. This vegetable has a most healthful action on both bowels and kidneys.

The onion, too often snubbed by those who would be ultra fine, holds a high place as a flavor vegetable, stimulating, laxating and generally purifying the whole system. Beets are a nerve tonic, make new blood; the Greeks held the beet ideal for brain workers.

Cucumbers are rich in potassium and phosphorus; even in ancient times they were used for the complexion, internally as well as externally. Carrots rank still higher in these days with the beauty specialist; when eaten raw, one a day, they are a sure cure for a muddy complexion.

Grapes are one of the favorite fruits and are usually taken by all with cleansing and tonic effect.

The Prettiest

Miss Ethel Morganston holding the cup she won in the annual bathing beauty contest at Tidal Basin Beach, Washington, D. C.

COOLING BREEZES SWEEP THE GOLF LINKS OF ST. ANDREW'S

The Golf Links at St. Andrew's-by-the-Sea

Fun in Katy's Cove

Greenock Church, St. Andrew's

Algonquin Hotel with three faces to the sea

While the continent as a whole has been sweltering under a pitiless sun that has kept the mercury round the hundred mark, St. Andrew's-by-the-Sea, known as the Newport of Canada, has been blessed with delightful days. The temperature of this popular resort on Passamaquoddy Bay in New Brunswick, has averaged 70 degrees F. On July first the mercury stood at 62. This fact has drawn many visitors to St. Andrew's and the hotels are thronged with a gay crowd which added to the Canadian smart set whose palatial cottages overlook the Bay, makes the northern Newport a lively place.

Like its namesake in old Scotland, St. Andrew's is noted for its excellent golf links. These are laid out on a spit of land known as Joe's Point which projects into the blue bay and is swept by sea breezes at every hour. Golfers are to be found enjoying the course at all hours and many of the four-somes include world famous players. A fine programme of matches has been arranged for the season and the various competitions for handsome cups will commence on July 25th.

Bowling on the green is another attraction at St. Andrew's. This is a sport little known south of the

border, but so popular at St. Andrew's that the green is lighted by electricity at night and keenly contested matches vie with the fine dancing floor of the Casino as an evening pleasure.

Bathing in Katy's Cove affords safe delight to young and old, while the waters of the Bay lure sailors of all water craft to join in the weekly sailing and motor boat races.

The motor roads in the vicinity are in fine condition and an afternoon run from the old town of St. Andrew's out over the hard packed road to the wooded heights above St. Croix and then on to St. Stephen is a joy that never palls.

A CORRECTION

This to correct any wrong impression which may have been made by an item of Curwensville news which appeared in your paper of Monday last. The item referred to speaks of the baby clinic as a failure because of lack of interest and no babies in attendance. Quite the contrary is the case. The clinic has been open for a month, every Friday afternoon from 3 to 5 o'clock and thus far 18 babies have been registered in the four days set apart for that purpose. Miss Withers is a most efficient nurse, having seen service at home and abroad, and Mrs. Blair, Ake, Edward and Jenkins have each been present one afternoon to consult and advise if necessary. If 18 babies have been benefited, if 18 mothers have been advised, as to proper care and nourishment of their children we feel that our clinic is far from being a failure. We want to stimulate interest and so insure increased attendance and inasmuch as the service is free and the babies have a right to be healthy and happy, thus laying the foundation for strong and vigorous manhood and womanhood, bring them to the clinic.

WARE WASTE AND
WEAR WELL!

Human Bodies Are Poisoned by Their Own Waste—Most Illnesses Are Preventable.

The human body has to be heated and fine foods burned inside the body produce much waste. All this waste should be removed from the body regularly, thoroughly, daily, by the eliminative organs, which are the bowels, kidneys, skin, and to some extent the lungs. These should act in harmony. If the bowels are inactive, extra effort is required of the others, which easily become deranged. Many medicines will force bowel action temporarily but the after-effects are harmful. Many remedies are advertised, some of which have proven year after year to be reliable, efficient, and without harmful action or effect. Take Beecham's Pills for example. For over 70 years Beecham's Pills have been a household word all over the world. 70 years of use by all sorts of folks, men, women and even children, have proven first, that Beecham's Pills do what is claimed for them; second, that they are harmless, do not produce bad effects. Some medicine forces Nature to unnatural action. Other medicines, like those contained in Beecham's Pills assist Nature, act mildly, persuade and hence produce no harmful effects. It is common to find families in which Beecham's have been used by several generations, their use handed down from father to son and from mother to daughter. That's the best possible recommendation for any remedy. Every druggist sells Beecham's, is glad to do so because he knows that their reputation has been won by merit.

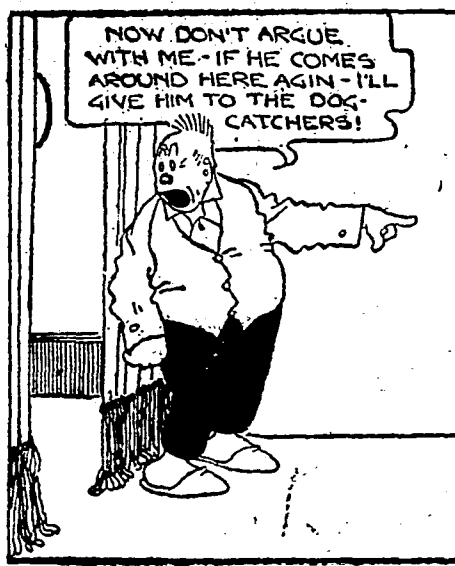

BRINGING UP FATHER

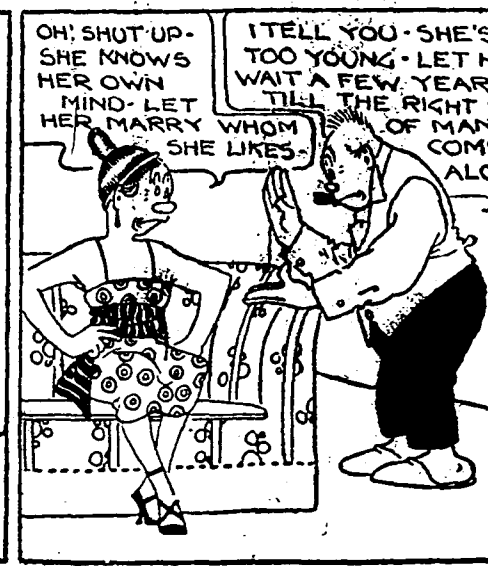

WHY, FATHER, YOU ARE CRUEL TO TALK LIKE THAT ABOUT ALGY. HE'S A SELF-MADE MAN.

HE'S THE FINEST CAKE-EATER I'VE EVER SEEN.

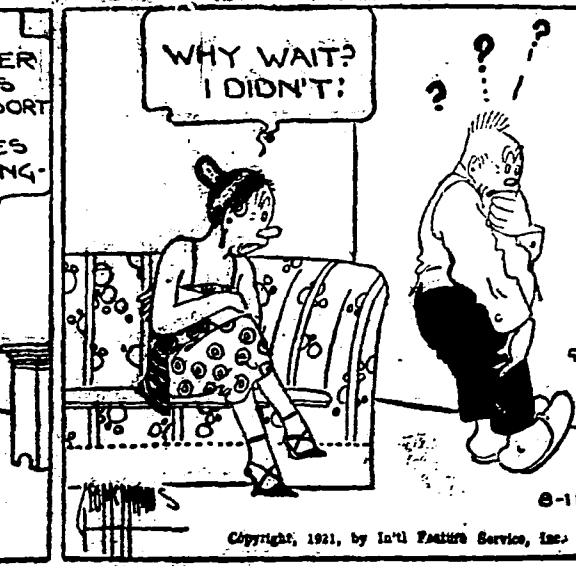

NOW, DON'T ARGUE WITH ME. IF HE COMES AROUND HERE AGAIN, I'LL GIVE HIM TO THE DOG-CATCHERS!

OH, SHUT-UP. SHE KNOWS HER OWN MIND. LET HER MARRY WHOM SHE LIKES.

I TELL YOU, SHE'S TOO YOUNG. LET HER WAIT A FEW YEARS. TILL THE RIGHT SORT OF MAN COMES ALONG.

WHY WAIT? I DIDN'T!

Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Merch Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework. She was so ill. Made well by Lydia E. Pinkham's Vegetable Compound. Fayette, O.—"For about three years I was very nervous and had backache, sidesache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CASSEN A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience: Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQuitty, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassem, Mrs. Ball, and Mrs. McQuitty will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Testing the Hairdresser's Touch.

In Berlin there is a "school" where it is the aim not merely to teach the students what to do, but to instruct them thoroughly in the best way to do it, and there is a test which they all have to meet before they are judged to be competent hairdressers. This machine is specially designed to test the user's ability to comb hair without pulling or jerking or breaking it. By recording the tension at all times during the combing, it gives a complete indication of the manner in which the wielding of the comb progressed.

ANTI-VACATION FILIBUSTER
THREATENED

Washington, D. C., Aug. 11.—A filibuster to prevent a Senate recess was threatened today by Senator Pittman, of Nevada, who says he has the support of other Senators from Western States.

Candles on Birthday Cakes.
The custom of placing candles on a birthday cake—one for each year—comes from Germany. The Germans placed a thick one in the center, called Lebenlicht, the light of life. Only he or she who declares his or her birthday may put out the light of life; it is unlucky if done by any other member of the family. The lights are symbols of life and its portions the years. For persons advanced in years one candle must do duty, as otherwise too many would be required.

PENNSY GETS MORE TIME FOR BALLOT

Chicago, Ill., Aug. 11.—The Pennsylvania Railroad Company yesterday was granted a 15-day extension of time in which to arrange conferences between the road and duly authorized representatives of the employees, according to an announcement made late today by the railroad labor board.

SEMI FINALS ON IN COUNTRY CLUB TENNIS TOURNEY

The first sets in the semi-finals of the Country Club Tennis Tourney were played off yesterday afternoon, with Woolridge and Powell winning the first of the doubles series from Mitchell and Weaver. The sets stood 6-4 and 7-5. This places the former couple in line for the finals.

Thursday afternoon Shillingford and Van Valsah will meet Bigler and Reed. The winners of this set will meet Woolridge and Powell in the finals.

Gossip for Tonight's Tea Table

Miss Loretta Snook of Reed street, entertained her Sunday School Class last evening. Everyone reported a pleasant time.

Mrs. W. H. Schlake, Mrs. Wilfred Schlake and son, M. E. Schlake, of Indianapolis, Indiana, are visiting the latter's parents, Mr. and Mrs. W. R. Fargo.

Mrs. Earl Ray and son Harold, of Pittsburgh, are visiting her parents, Mr. and Mrs. W. R. Fargo.

EVANS FAMILY REUNION

The Evans family reunion will be held at the old homestead in Graham township on Saturday, August 20, 1921. All the members and friends of the family are invited to participate.

HOCKING VALLEY MINERS ON VERGE OF STARVATION

Martins Ferry, Ohio, Aug. 11.—Miners in the Hocking Valley coal fields in Southern Ohio, are on the verge of starvation because of business depression, Lee Hall, president of the Ohio Division of the United Mine Workers of America, announced here today. Aid from the union will be solicited, Hall declared.

ARREST MAN IN MURDER MYSTERY

Stuebenville, Ohio, Aug. 11.—With the arrest of Wallace Wright, of Wellsville, Ohio, at Mainard, today, police believe they have made a long stride toward clearing up the murder of a Harry Cummins, aged 30, local auto dealer.

Joe Bellon, of Martins Ferry, also under arrest, is said by police to have implicated Wright. Cummins disappeared several weeks ago. His body was found in a creek near here about a week later.

STORE CLOSED EVERY THURSDAY AT NOON DURING AUGUST.

AUGUST SALE OF BLANKETS

MRS. JESSIE GEARHART CARDON

Jessie Gearhart Cardon, wife of George A. Cardon, and second youngest daughter of J. E. Gearhart, died Tuesday, August 9th, at 2 p. m. in the Magee Hospital, Pittsburgh, Pa. Mrs. Cardon had been ailing for some time, but not until a week ago last Sunday was her condition thought to be serious. A few days later it was found necessary to take her to the hospital, where a serious operation was performed, but the trouble was of such a character that the operation did not produce the desired results and five days later death ensued. Thus a beautiful life has gone out, leaving a sorrowing husband, father, brothers and sisters with a host of friends to mourn her death.

Some years ago Mrs. Cardon was baptized and united with Trinity M. E. church, from which she did not remove her membership. To the faithful in Jesus, it is only "Good Night."

The funeral services will be held Friday at 2 p. m., at the Gearhart home. Rev. E. V. Brown will officiate with burial in Hillcrest cemetery.

Miniature Writing.

Marcel Mauvals sent to La Nature (Paris) an ordinary postcard on which he had written 23,154 words, with a total of 125,000 letters. It is legible even to the naked eye. The average book has about 300 words to the page, so this postcard represents about seventy-seven pages.

"HIGH GRADE FEEDS"

TWO DEAD--ONE DYING AFTER GUNFIGHT BETWEEN POLICE AND ALLEGED BADMAN

**MT. CARMEL MAN RUNS AMUCK. SHOTS DOWN
SPECIAL OFFICER IN BATTLE TO RESIST AR-
REST. IS KILLED BY POLICEMAN. GUN FIGHT
FOLLOWS FAMILY QUARREL.**

Mt. Carmel, Pa., Aug. 10.—Two men are dead, one is dying and two others were seriously wounded, the result of a family quarrel followed by a gun battle between borough police officials and an alleged "bad man" in this city last evening.

John Urbanowicz, aged 20, was shot and killed by officers who went to apprehend him after he shot Joseph Jurkiewicz in the abdomen. In the battle which ensued special officer Peter Koslowski, who went to the assistance of the other police, was shot and killed by Urbanowicz.

Earl Roe and Edward Watkins were also shot, but both are expected to recover.

FRENCH CLAIM BRITISH USED "STRONGARM"

**Complain Lloyd George
Swayed Supreme Council
By Threat To Abandon
France.**

Paris, France, Aug. 10.—Prime Minister Lloyd George, of Great Britain, was charged today with using "strong arm" tactics in forcing an alleged agreement on the partition of Upper Silesia. Typical of the comments on the Supreme Council session yesterday, in which the premier won the gathering to the British view, was the complaint of "Pertinax" in the Echo de Paris. "Britain has forced us to accept a Downing street settlement on the penalty of being abandoned by the Entente. That is going rather far," the complaint declared.

Japan Agrees To Conference Date

Washington, D. C., Aug. 10.—The State Department was advised by the American charge at Tokyo Tuesday that Japan "gladly accepts" November 11 as the date for the opening of the disarmament conference in Washington.

Department Of Justice Will Make New Raid On Profiteers

By RALPH S. COUCH
(United Press Correspondent.)
Washington, Aug. 10.—The Department of Justice today began to gather evidence for a new raid on profiteers. Profiteers were not to escape, it was made plain, despite the fact the Supreme Court recently knocked out the anti-profiteering of the Lever Act.

"The Department of Justice will have behind it the powerful anti-trust laws and other acts designed to prevent artificial price fixing," declared Guy Coff, assistant to the attorney general.

The new line of attack will be mainly aimed at open price negotiations and organizations of dealers and speculators. During the war the government took action against individual profiteers under the Lever Act.

AMERICANS AT LAST ON WAY TO FREEDOM

**Party Of Released Prisoners
Reach Marva. Expect To
Make Reval By Nightfall
Tonight.**

Riga, Aug. 10.—The Americans held prisoners in Russia, and recently released from custody, reached Marva today enroute to freedom. They are expected to arrive at Reval tonight. The party of Americans crossed the border into Estonia this morning. Marva is the first city across the Estonian line and is situated at the head of Marva Bay. Because of poor transportation facilities the run to Reval is expected to take up most of the day.

Mr. and Mrs. W. E. Phillips Smith and son Neil, of Altoona, are guests at the home of W. E. Phillips on South Fourth street.

She Carried A Roll.
When the personal effects of the once-famous dancer "Rizolboche," who died recently in Paris at the age of eighty, were sold at auction, an old silk dress was knocked down to a second-hand-clothes dealer for a mere 20c. On examining the garment the purchaser found concealed in the lining a bundle of French bank notes to the value of \$1,000.

BOUNDARY DISPUTE UP TO THE ALLIED SUPREME COUNCIL

By HENRY WOOD
(United Press Staff Correspondent.)
Geneva, Aug. 10.—Chile has already launched her fight to prevent the September Assembly of the League of Nations from undertaking to revise 1904 Antofagasta peace treaty between Bolivia and Chile.

Bolivia's request that the League take up this question was put on the agenda for the Second General Assembly of the League over the protest of the Chilean delegation. The latter challenged squarely the competency of the League to undertake the revision of such a treaty as that of 1904—a treaty which, according to the Chilean delegation has already demonstrated its efficacy as a means for maintaining peace.

As the next step in her fight, the Chilean delegation has just protested to the Secretariat of the League of Nations against the manner in which the question is presented on the agenda. According to the latter, the Assembly will be called upon to pass up the whole question in dispute.

COAL OPERATORS SHIFT BLAME TO THE MINERS

**Last Letter From The Central Coal Association
Points Out Uselessness Of
Meeting If Wages Are
Not To Be Discussed.**

What appears to be the closing gun in the verbal controversy between the Central Coal Association and President Brophy, of the United Mine Workers, District No. 2, was apparently fired Thursday when President Webb Shillingford, of the Central Coal Association on that date sent the following letter to the Mine Workers' official:

"Mr. John Brophy,
President District No. 2,
United Mine Workers of America,
Clearfield, Pa.
"Dear Sir:

Your letter of August 4th was duly received and submitted to our Executive Committee today. I am authorized by the Committee to say to you that in view of the nature of your reply, which absolutely refuses to discuss a modification of the present wage agreement, there seems to be no occasion to discuss any other subject at this time. It is well known to you and to the officers of the national organization, to the operators and to the public generally that the present scale of wages puts this district out of any reasonable competition with other districts working on a thirty to forty per cent. less wage scale and competing with the production of this district.

"We pointed out to you in April that, in our opinion, a serious crisis affecting the union miners and operators of this district was approaching. Unfortunately our predictions have been more than verified. Thousands of men are idle, production is going to other districts in increasing quantities and we see nothing but further distress for the union miners and miners of this district.

"The refusal to discuss a modification of the present scale in the interest of the union miners and operators places upon your organization a responsibility which you must assume in its entirety.

"Very truly yours,
"G WEBB SHILLINGFORD,
"President."

Swims Rapids

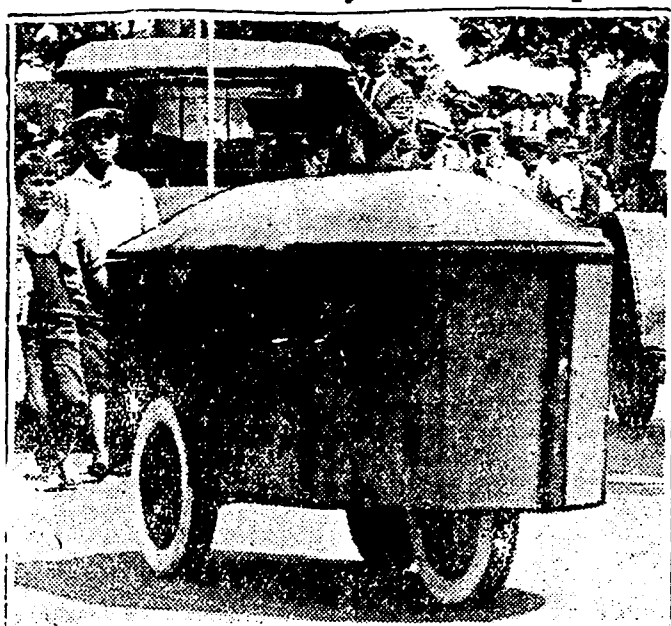

Miss Dorothea Behrman, 19, of Brooklyn, is the first woman ever to swim the rapids of the chasm at Ausable, N. Y. She swam a quarter of a mile and escaped with a few scratches from jagged rocks. She holds three medals for diving and swimming.

MISTOOK GIRL FOR HIS WIFE--SHOT HER

Newtown, Pa., Aug. 9.—Mistakenly mistaking a girl for his wife, from whom he has been estranged, James Brown, of Conowingo, Md., shot and killed a young woman, and then killed himself. His victim is Mrs. James Quisler, 19 years old.

This Will Worry Traffic Cops

This car rambled through the streets of Dayton, O., without a driver but it halted when the traffic cops held up their hands. And it started and turned corners when ordered. It was controlled by radio. Captain R. E. Vaughn of the army radio service directed it from the auto in the rear. Such a car controlled by radio and loaded with explosive could be sent across No Man's Land and timed to explode at the enemy's trench.

Pennsy. Begins Paving Between Third St. Rails

**Tarvia Binder Being Used
To Do Away With Trap
That Snagged Many Auto-
mobiles.**

The Pennsylvania Railroad Company has at last begun the work of paving between the rails of their track from Market street to Walnut street. The limestone ballast for same was placed several weeks ago and on Monday a small crew began putting down the tarvia.

The street from Market down to Reed is paved between the rails with plank, and the tarvia is being used from Market to Walnut as a sort of experiment. If it proves satisfactory, when it becomes necessary to replace the planking, tarvia will also be used on the other three blocks.

AMERICAN RELIEF CHIEF ARRIVES IN REVAL TODAY

Reval, Aug. 10.—Walter Lyman Brown, chief of the American Relief Commission, assigned to Russia, arrived here today, and immediately went into conference with Soviet representatives. Boris Litvinov, head of the Soviet delegation, was accompanied by M. Chetelne, the famous singer. Brown demanded assurance in regard to the release of American prisoners and guarantees for the safety of American Relief workers.

NO INTERVENTION IN GEALCO-TURK PRIVATE FUSS

Paris, France, Aug. 10.—The serious attitude at the beginning of the World War was used by the Allied Supreme Council today to decide their course in the Greece-Turkish war. The Allies decided to preserve strict neutrality with no intervention in the shape of military or credit assistance. There will be no interference with private commerce.

Tellegen Turned Tarzan- Forgot His Platonic Role And Farrar Fled

Long Beach, N. Y., Aug. 10.—"Tellegen turned Tarzan. He started to late in July when the famous prima donna visited Tellegen at his fishing shack here. According to the story, Tellegen forgot the platonic role which friends allege he has played for the last five years with his beautiful wife.

PASSENGERS ON STRANDED SHIP SAFELY LANDED

San Diego, Cal., Aug. 10.—All passengers aboard the Pacific mail steamship San Jose have been landed and an effort is being made to get the vessel off San Pablo Reef by her own engines, according to a radio message received at the navy station here.

Naval Airplane Responsible For Boat Attack.

Newport, R. I., Aug. 10.—Naval authorities announced yesterday, the airplane which flew over Narragansett bay Tuesday firing a machine gun and injuring a member of a boat party, has been identified as a naval craft. Rear Admiral A. W. Robertson, commander of the destroyer force, immediately ordered a court of inquiry to investigate the affair.

Drinks To King Dead Ten Years

Paris, Aug. 8. (United Press.)—Now that the city fathers of Paris have got back from their trip to Scandinavia, they are telling a mean story on M. Le Corbeiller, who, as president of the municipal council, is about as close to being mayor of Paris as anybody can be; for Paris has no mayor in the American sense.

M. Le Corbeiller was called upon, at a Stockholm banquet, to respond to the toast of "la belle France," the president of the Republic, and so forth. Raising his glass of apple-jack, he replied: "I drink to the health of King Oscar, to that of the royal family, to the ministers."

Sheriff Returns Without Heinzy-- Wrong Man Held

Sheriff A. M. Gorman returned last evening from Meadville without Heinzy, the escaped murderer. The man arrested by the State Police at Conneaut Lake last Saturday was a dead ringer for Heinzy but was not the man wanted and was released after the Sheriff looked him over.

GOV. SMALL AT LAST SUBMITS TO ARREST

Springfield, Ill., Aug. 10.—Gov. Len Small, of Illinois, shortly after 5 o'clock last night, submitted to arrest on charges of embezzlement while State Treasurer.

The arrest was made at the executive mansion. The Governor was placed in the Sheriff's automobile and rushed to the Court House, where bonds of \$50,000 were arranged.

Board Of Health Issues Warning To Clean Up

The Board of Health has suggested to the people of Clearfield that they take especial pains to clean up about their premises. Filth of any kind breeds flies and flies carry disease germs. This is the season for typhoid and one can guard against the disease by cleaning up his premises. The Board of Health urges each citizen to purify cellars and back yards by a plentiful use of unslacked or chlorinated lime.

Parents should also advise their children against drinking water from springs and wells about or near town. Wayside springs often contain typhoid germs.

HARDINGS HOPES TO END SENATE HOUSE DEADLOCK

By RAYMOND CLAPPER
(United Press Correspondent.)
Washington, Aug. 10.—President Harding today called leaders of both houses of Congress into a conference in the hope of bringing about an agreement to end the legislative deadlock and enable Congress to take a brief vacation.

The questions that are giving the President the most trouble are: First, The extent to which taxes can be cut; Second, An agreement on the tariff bill satisfactory to the conflicting interests of the consumer and producer in all sections of the country.

Salt and Gasoline.
Gasoline used in combination with salt is a good dry cleaner; salt absorbs the oiliness of the gasoline, as well as cutting into the badly soiled places. Dip the cloth first in the gasoline and then take up a little salt before rubbing garments.

Blair County Typhoid List Is Growing

With twenty-two cases of typhoid fever reported to Dr. A. S. Kech, representative of the Pennsylvania department of health for Blair county, since July 18, Hollidaysburg and Jaysburg boroughs find themselves in the throes of an epidemic that is causing much alarm among the residents and is of such a serious character due to the alleged inactivity of the Hollidaysburg board of health that the state health authorities have decided to take the two boroughs over and place them in the hands of a state representative unless the borough council acts today.

GRAMPIAN LEGION POST WILL HOLD BIG PICNIC

The Edward Arthur Rafferty Post of the American Legion will celebrate Labor Day, September 5th, at Grampian. They have arranged for some good speakers to be present, as well as a baseball game and races. There will be a picnic luncheon at noon. The picnic and celebration will be held in the beautiful grove on the edge of the town. This is a natural grove and is one of the prettiest spots of its kind in this part of Pennsylvania.

DUTCH KATIE FUND SLOWLY GROWING

ODDS AND ENDS AND THINGS

"By Skinny"

A Brooklyn doctor has been sued for \$50,000 damages by one of his patients, a young man who was stricken with appendicitis a few days before his wedding was to take place. The doctor took out the troublesome appendix, but left some tools and appliances lying around inside when he patched up the poor devil's flitch. The stuff remained there some time and not only interfered with the wedding, but caused the victim great pain until salvaged by another lid-lifting operation some seven months later. Hence the suit.

The latest thing exciting in the lives of the local "lounge lizards" is the "conversational walk," the latest jazz dance to be foisted upon a long suffering public by the American National Association of Dancing. This is how she works: When the jazz starts, you greet your partner and move slowly down the floor, talking in time with the music. Then you fox trot again and keep up the talk. Of course a good dancer will memorize a series of bright remarks and use them on each dancing partner in turn. They'll not know the difference unless you dance with the same person twice.

A State College professor and a class of students who are hibernating in the mountains, are getting a lot of publicity just now over a story from a Bellefonte correspondent, which states that the party dine on fried rattlesnake once a week. That story don't excite anybody over this way who is acquainted with "Sunny Joe" Wilson, formerly of Punxsutawney and Clearfield, but now of Phillipsburg. Joe has been roaming these Clearfield county mountains for more than thirty years past and off-times treated his friends at the Punx and Hite Pine camps to tempting dishes of delicious rattlesnake. Joe was the first fellow in these parts to develop the diamond back into an appetizing morsel of food some twenty years or more back, and the fellows who ate of it said they all thought they had all partaken of fresh water eels until Joe gave the snap away.

Human nature appears to be the same down in Washington all the time. We believe we can recall an instance or two when Democratic Senators and Congressmen alleged certain things about one Woodrow Wilson, who, if our memory serves us right, was President of these United States one time, but we hardly expected anything like this so soon, but for fear you might not find it elsewhere in this valuable newspaper, we are going to sneak it into "the column," but don't give us away. Listen:

Representative Oscar E. Keller (Republican, Minn.) attacked the Harding Administration, from President down, for catering to special interests.

According to Mr. Keller more orders have been sent Congress from the White House since Harding became President than were ever sent by Wilson or any other President, and more secret sittings to formulate measures than ever before have been held.

As for transportation rates, high interest and credit control, with speculators "favored over producers," excessive rents, crushing taxes and poor distribution systems, Mr. Keller declared that the Government had attempted to legislate on each of these vital problems in the last six months, but instead of welcoming disinterested advice of economists, scientists and other experts, the Government machine had been commandeered by "a little clique, ignorant of the A B C's of economics, whose blind obedience to Wall Street is responsible for the stupid, selfish and short-sighted policy that is retarding our prosperity and creating profound distrust and discontent among the people."

"The President," he continued, "has assumed more power than his predecessors and tells Congress what bills to pass—and what not to pass. Bills connected with secret conferences are introduced without being referred to responsible committees. The President's advisers seem to think it possible for this country to lift itself by its economic bootstraps and save a promise that a half-billion dollar gift to the railroads, which in some mysterious manner is not to increase taxes, will be more prosperous. They would do better to busy themselves with lowering rates."

Diré Penalty for Medical Failure.
In the days of Babylon the doctor or surgeon who failed of a cure frequently was condemned to have his hands cut off by the public executioner.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

[National Crop Improvement Service.] IN THE long run it is economical to build an extra heavy fence to hold large animals. The wide spacing between line wires on a heavy fence, permits the use of much heavier wire so the fence really costs about the same as a lighter fence more closely woven. This style of fence is particularly adapted to horses and cattle yards, corrals, paddocks, cranberry pens and pastures where a fence of extraordinary strength is required. The language of an ill-tempered bull are proverbial and the owner of such a beast owes it to the public to keep him securely inclosed. Little Red Riding Hood, passing on her way to school often attracts the attention of such an animal and he will charge at the red cloak. Also teasing boys have been known to irritate the bulls so that they will charge and break down any fence which is not substantially made. There should be a resilient rebound to such a fence so in case of a heavy lunge or impact, the animal will be thrown back rather than crash through a fence which might break because too rigid. Galvanized steel posts are best for this sort of fence because it is unforgivingly strong and has no inherent defects nor will it rot, which might be the case with wooden posts.

HOGS ON CORN GIVE PROFITABLE RETURN

If Clearfield county farmers want to realize a maximum return on a part of their corn crop this year, they should make preparations to allow their hogs to harvest sections of the corn field next month, according to County Agent W. C. Sterrett. He recently received some interesting data on hogging-off corn demonstrations conducted last year in various counties by the Pennsylvania State College Agricultural Department.

"It was shown in this work that while corn sold for seventy cents a bushel, those farmers who fed their hogs in the corn field, received a pork return of \$1.40 for every bushel devoured by the animals," says Mr. Sterrett. "This gain in the figure was reached after the cost of fencing, interest on investment, labor, etc., had been subtracted. There were 12 demonstrations in which 284 shoats were used, averaging about 125 pounds at the start. There was an average daily gain of a pound and a half in weight, and each acre of corn averaged a return of 421 pounds of pork. Proportionate returns may be secured by this method of feeding this year, depending upon the market price of pork."

The County Agent also points out that hogs should now be on some kind of good pasture, and should not go into the corn until it is ripe enough—dented and ready to cut. Eight shoats per acre is about the right number to turn into the corn, and they should have from 20 to 50 days there before marketing. In addition to the corn, the shoats should have about a quarter pound of tankage a day, and plenty of water. A number of Clearfield county farmers follow this practice and more this year will see the advantage it gives in rapid pork production.

FARM CALENDAR

Timely Reminders From The Pennsylvania State College.

Peach Borer.—Growers who are planning to control peach borers with para-dichlorobenzene treatment should note that the best time to apply the material is in September, preferably the last two weeks.

Potatoes.—Roguing and spraying of potatoes should be continued without any let-up. Spraying has already demonstrated a 40 per cent increase in yield of early potatoes.

Sheep.—Now is the time to get the lambs weaned, the old ewes culled, and to begin to get the ewes in shape for the breeding season.

Pastures.—Daily cows will not enter the fall feeding period in the best of condition unless they receive some feed to supplement the short August pastures. Cut some green fodder and feed it liberally when the weather is hot and the pastures dry up. It will be returned in added milk production this fall.

Garden.—Early varieties of turnips may yet be sown safely. Unless the ground has been well manured in the spring, it is best to add a little fertilizer for turnips, especially phosphoric acid.

Poultry.—All the pullets that one is able to rear will not be profitable individuals to keep. Cull out all the weak, poorly developed pullets and keep only those that mature early.

When To Apply Lime.—When the soil is in need of lime, it may be applied in advance of seeding wheat to good advantage. Mix with the soil

by disking and harrowing in preparation for wheat. This brings the lime closer to the clover.

MANY LIKE THIS IN CLEARFIELD

Similar Cases Being Published In Each Issue.

The following case is but one of many occurring daily in Clearfield. It is an easy matter to verify it. You cannot ask for better proof.

F. R. Waple, 422 West Front street, Clearfield, says: "Some time ago I was troubled with a bad pain in the small of my back which caused me a lot of distress. I also had severe headaches and a lame and tired feeling all over. I purchased a box of Doan's Kidney Pills and found them to do me a lot of good from the start. Two boxes of this medicine fixed me up in fine shape. Since then, when I have had an attack of that kind, I have used Doan's and have always found them to bring good results."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Waple had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Short Cut From "Main Street"

Every woman ought to get off by herself, and turn over her thoughts about children and heaven, and how bad her complexion is, and the way men don't really understand her, and how much work she finds to do in the house and how much patience it takes to endure some things in a man's love—"Main Street" by Sinclair Lewis.

Embarrassing Situation

My most embarrassing situation happened when I was a young girl. Our Sunday school gave a picnic in the woods and I attended, wearing a white dress, and carrying a green silk parasol. Unfortunately, a ruin came up and after it was over my dress was as green as my parasol.—Chicago Journal.

Sweetens the Stomach Stops Indigestion

Read what Boyd Wile, of Newell, W. Va., has to say about Dr. Orth's great Stomach Prescription:

"Gentlemen:—I suffered with acidity of the stomach for eight months, trying a dozen different kinds of medicine, with no results. I read of Dr. Orth's Stomach Remedy in the paper, and bought one box, and after taking it, found I was able to eat anything. Am feeling fine, have had no stomach trouble since, and am pleased to recommend it to any one having Stomach trouble."

Any person suffering from any sort of stomach trouble, acute or chronic, who does not say that Dr. Orth's Stomach Remedy is better than anything they ever took for stomach distress, misery, indigestion or dyspepsia, or for any reason whatever is not satisfied with the treatment, can have their money refunded.

Quick, almost instant relief and permanent cure is what the user of Dr. Orth's Stomach Remedy is entitled to and what they get. 75 cents gets a big box at any first-class drug store, with the distinct understanding that if it fails, they can have their money refunded. Out-of-town sufferers can order by mail from The Orth Laboratory Co., East Liverpool, Ohio.

Chinook Language.
The Chinook language is a jargon of Indian, French, English and other words, named after the Chinook Indians of the Columbia river in the state of Washington and in British Columbia. It was once much used by traders and Indians in that region, but is now nearly abandoned. Gill's "Dictionary of Chinook Jargon" was published in Portland, Ore., in 1891, and Boas' "Chinook Texts" in the Smithsonian report of the bureau of ethnology at Washington in 1894.

Quick, almost instant relief and permanent cure is what the user of Dr. Orth's Stomach Remedy is entitled to and what they get. 75 cents gets a big box at any first-class drug store, with the distinct understanding that if it fails, they can have their money refunded. Deaver and a fourth of an acre purchased from Henry Holtz. This notice is given by virtue of a resolution of the Board of Directors duly called. JAMES A. MCCLAIN, Secretary. 7-20-27-8-10-3t ch.

Avoid Staleness.
You can avoid staleness if you have will power enough to assert yourself. Like the fabled hero of the ancients who grew stronger every time an adversary threw him to the ground you can "come back" if you go to mother earth. Get out into the open. Go to the streams where the fishes play. Climb the hills where you will be compelled to pull good air into the lower lungs. Chase the wild things of the forest and then try to outdo the thunder with unrestrained halloo and see what nature will do for you. There's something in the careless abandon of nature that puts fitness into the whole man.—Grit.

Ultimate Literature.
Criticism is the youngest of all the literary forms. It will perhaps end by absorbing all the others. It is admirably suited to a very civilized society with rich memories and long traditions. It is particularly appropriate to a curious, learned and polite humanity. For its prosperity it demands more culture than any of the other literary forms.—Anatole France.

HOW TO TELL WHEN OLIVES ARE POISON

(By United Press.)
Philadelphia, Aug. 10.—When opening a bottle of olives, if they give off a rancid, offensive odor, they should be thrown away, because they are poison, according to Dr. Randall C. Rosenberg, professor of hygiene and bacteriology at Jefferson College.

Dr. Rosenberg has been carrying on experiments to find out how to detect poisonous olives. Good olives have a pleasantly aromatic odor, he said. The poisonous olives smell a little stronger than rouquefort cheese, and the liquid is clouded.

The poison is known as bacillus botulinus. It is found more frequently in ripe olives than in green ones, probably because the ripe variety are really over-ripe and possibly in an early stage of decay, Rosenberg said.

Dr. Rosenberg carried on extensive experiments with guinea pigs, white mice and rabbits.

Terriers Live Up To Name And Hang On To The Finish-Winning Game By Last Minute Batting Rally

HOPELESSLY BEATEN UP TO THE FIFTH FRAME, LOCAL SQUAD SHOWS COMEBACK AND GRADUALLY OVERHAULS VISITORS. BISHOP, JAMES-VILLE HURLER, OVERTHROWS OSCEOLA PRIDE. ALSO WALLOPS HOMER. SOME GAME AT THAT.

The longest drawn out and most exciting game played on the local diamond this year, was that of yesterday afternoon, when the scrappy Allegheny Steel aggregation, representing Osceola, met Manager Hoffman's Clearfield Terriers at the Driving Park.

The game was full of thrills of all sorts from start to finish and the fan who didn't get his 55 cents' worth was certainly hard to please. The game had hardly begun until a near-riot was precipitated when Jack Onslow, coaching at first base for the visitors, used such foul and indecent language to both Breckenridge and Taylor as to cause the latter to forget himself for the moment and march out to the coaching box with a bat in his hand, for the purpose of beheading the big rowdy.

Officer Keogh and Deputy Sheriff Gilliland, with the assistance of cooler heads, prevented real trouble and, after a few minutes' milling about by the crowd, the game was again got underway.

Breckenridge Got Bumped. Breckenridge was Manager Hoffman's pitching choice, but he got so angry and worked up in the encounter with Onslow that he wobbled perceptibly, allowing three hits and made a wild pitch. This, coupled with errors by Seigfried and Zerfluh, allowed four runs.

Lefty Bishop To The Rescue. Lefty Bishop, the Janesville phenom, was sent in to relieve Breck in the second and the husky Lefty proved to be "some hand." During the eight innings Lefty officiated on the rubber, the heavy hitting Steelers only managed to nick him for six hits and with perfect support he would have held them to two scores.

In addition to pitching like a real big leaguer, Bishop also batted in three of the nine runs his team scored. In the seventh he hit one of Zeller's fast ones on the nose and drove it on a line out to the track under the fence in deep center, for a homer. It was a mighty Babe Ruth wallop. His double also scored two in the eighth.

Bishop won the \$25 in cash presented by Helmhold & Stewart, the writer having had the pleasure of turning it over to him just before he slammed out his double.

Here's How It Was Done. We already have told about the first four the visitors got. In the

second Bishop walked Zellers and he scored on Russell's triple, after Tyson and Morpeth were out. Gill fanned.

Bishop blanked them in the third, but in the fourth they grabbed off two more. Zellers singled and scored on Tyson's double and the latter counted on Russell's single.

Singles by Edmonson and Rudolph and an error by Seigfried gave them their eighth marker in the fifth and thereupon Lefty turned out the light on them and they never threatened again.

Terriers Never Said Die. The Terriers, true to their name, refused to give up, but hung on like grim death to a dead nigger. They started their half of the fifth eight runs to the bad and things really looked blue up to that time, as but one lone hit had been made off Zellers, a single by Zerfluh.

Manager Hoffman, first up in the fifth, worked Zellers for a pass and Zerfluh scorched a single into center. Hoffman crossed the rubber on Russell's sacrifice.

Then The Fun Started. After the ice was broken in the fifth it came easy and we grabbed off a run or two every inning until the grand finale. In the sixth Anderson walked and successive singles by Yerkes, Hoffman and Zerfluh, with Harris' sacrifice, netted two runs.

In the seventh Bishop poled out his homer, while in the eighth poor Zellers was manhandled for three more runs. Harris opened the inning with a triple to left. Hoffman walked and Tyson dropped Zerfluh's long fly to center, scoring Harris, and Bishop's double sent Hoffman and Zerfluh home.

The Stable For Zellers. Seigfried was first up in the ninth and after Zellers had pitched two balls to him, Onslow yanked him and substituted Taylor. Seigfried then singled but was out at second on Yerkes' attempted sacrifice. Seigfried sprained his ankle badly in sliding into second and will likely be out of the game the remainder of the season. Taylor walked Harris and Hoffman and Pete Zerfluh came through with his fourth hit of the game and Yerkes and Harris raced in with the runs which broke the Steelers' hearts.

Lots of Casualties. Lefty Russell, one time big league pitching sensation, who plays first

base for the Steelers, fractured a bone in his ankle sliding into second and was carried from the field and taken to the Clearfield Hospital, while Seigfried was able to come home to his hotel. Hopper was hit on the ankle by a pitched ball and forced to retire in the first inning, Russell taking his place behind the bat.

The score:

High School Tennis And Baseball Ground Now Completed

The High School Athletic Association, baseball and tennis courts at the driving park are now in shape for play. Any boy or girl in the town possessing tennis shoes and racket is welcome to play tennis on these courts any afternoon from 1 o'clock to 5.

The baseball grounds at the lower end of the park are in fine shape and any team of boys desiring to use them may do so. Mask and glove will be furnished by the Association to any team and may be secured from Prof. E. C. Ross, who is in charge of the athletic club and who will look after and direct the activities on the field.

Picked Up Along Third Base Line

WHAT EXCITES THEM
"It was a crucial baseball game That drew a mighty throng. The populace was all aflame And roared loud and long. A man on third, the score was tied, The crowd was tense and goggle-eyed."

"They watched with bated breath To see The pitcher heave the pill. They watched each motion anxiously And hopefully until A fellow in the stand arose And punched another on the nose."

"The ball game, as I said before Was keen and close and hot. A hit would mean the winning score But that was all forgot. And every rooster turned his map To watch two roughnecks in a scrap."

Bill Feeleys DuBois team beat Clarion yesterday 8 to 5.
The Elcos, with Lutz pitching, downed Indiana yesterday 8 to 3.

The Osceola and Houtdale fans behind the Allegheny Steelers, are clean, game sports, and will not stand for the kind of stuff Onslow pulled in yesterday's game. Baseball in this region has been clean and alright thus far, let us keep it that way. The average fan wants to see the best team win on its merits and will not stand for roughneck sharp practices.

The Allegheny Steelers are a classy ball team and do not need the

bull-doing tactics of Manager Onslow to win games. It is said that this big duffer was run out of the "hydrophobia league" because he refused to wear a muzzle in "dog days" and judging by his actions on his first appearance here, there must be some truth in it.

Lefty Russell's ankle was badly sprained, but no bones were broken, an X-ray examination at the Clearfield Hospital last evening disclosing this fact. This will be pleasing news to the fans, who greatly admired the slugging ability of the speedy first sacker for the Steelers. Russell accompanied the team home last evening.

The Elcos play Osceola at Osceola today and will also play the Steelers at Houtdale on Thursday.

The locals go to Philipsburg on Thursday.

Manager Moran and his Elco team will play in Clearfield on Friday and Saturday afternoons. These should prove to be highly interesting games.

THE WEEK'S SCHEDULE
Thursday at Philipsburg.
Friday—Elcos here.
Saturday—Elcos here.

THIS TIME LAST YEAR

Bill Doak failed to cover first base in a game between St. Louis and Philadelphia and deprived himself of a no-hit game. Williams got the hit.

Sisler, of the Browns, made his third homer in successive games. Boettel and Ford doubled in the eleventh inning and the Braves beat the Reds.

NEWS OF OUR NEIGHBORS

WINBURNE

A fine crop of blackberries is being harvested in this section. Many parties take long hikes into the woods every day and return with buckets full.

James Anderson is being congratulated on his marriage to Miss Beatrice Davis of Philipsburg. The happy couple have gone to housekeeping here.

Mrs. O. E. Henritzy is entertaining her sisters, the Misses Hoffman, of Philadelphia.

Mr. and Mrs. Joseph Duff and two sons, of Cleveland, O., old residents of this town, made the trip by automobile and are visiting at the home of George Harper.

Miss Mary Scholowski has gone to live in Tyrone where she has accepted a position.

Much sympathy is being extended to Mr. and Mrs. George Ivan of Lanser on the death of their fourteen month old baby who has been a long time sufferer with spinal disease. Interment was made in the Catholic cemetery Monday morning.

Her many old friends were glad to welcome Miss Nettie J. Balfour of Wellsborough, who spent a few days last week at the home of W. M. Hoover. Miss Balfour came here from State College where she has been taking the teachers' summer course.

The funeral services of Mrs. Herbert Deacon, of Munson, conducted by Rev. Ritzmar, in the Advent church Sunday afternoon, were attended by many sorrowing friends. The Women's Bible Class of Winburne Presbyterian church, of which she was a faithful member, was present in a body.

The Presbyterian Sunday School is proud of possessing a much needed new piano. The scholars of the various classes are entering with admiration zeal into the task of raising the sum required to pay for it.

The congregation of the Swedish Baptist church have decided to remove their church building to a more central location, near Lanser postoffice, and are now at work on same.

Rev. Benjamin Thomas preached at Cedarville, N. J., Sunday, where he formerly was pastor.

CURWENSVILLE

Rev. W. J. Runyan, a minister from Woodland, was a guest of Rev. and Mrs. Collins yesterday.

Mr. and Mrs. George Daugherty of Philadelphia, are relative visitors at the home of Mr. and Mrs. Joseph L. Dale on George street.

Charles Collins was home over Sabbath and expected to remain several days with his folks, but yesterday morning received a telegram summoning him to return to Carlisle at once. He has been elected to the Captaincy of the Dickinson Seminary ball team, but at present is playing with the Grove City team.

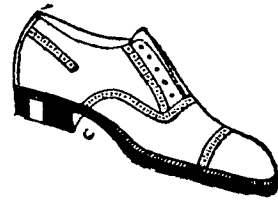

One of the greatest nuisances that Curwensville pedestrians have to contend with at present, is a gang of youngsters who are making a ball ground out of the sidewalks and streets during evenings, just before dark. Yesterday evening they swarmed over the sidewalks on State street so thickly that it was impossible for ladies to pass along without being in danger of being struck with flying balls. Policeman Clark is striving to break up this practice but just as soon as he succeeds in subduing the youngsters in one section of the street, it breaks out in another. The practice is very annoying, especially in front of business houses.

Raymond Black has purchased a large draying truck and proposes to give his entire attention to the sale and delivery of house coal during the balance of the season.

Despite the rumor that Curwensville has given up the idea of a celebration on Labor Day, the American Legion is hard at work preparing an elaborate program which

OBITUARY

CHARLES HUGUENY DIES

Charles Hugueny died at his home in Coudley at 8 o'clock Sunday evening, August 7th, 1921, after a lingering illness extending over a period of several months. Charles Hugueny was a resident of Covington township all his life and was loved and respected by all who knew him. He was aged 60 years and one month. He leaves to mourn his death, one brother and three sisters, as follows: Alexander, Rose, Mary and Eliza, all of Coudley, Pa.

Charles Hugueny was a life-long Republican and a good citizen all the week, and by the middle of next week several hundred yards of cubic stone for bridge walls, which has been piled at the loading wharf for some years back, will be placed on and shipped to the site of the big Camden bridge. Actual work of quarrying out and cutting stone in the quarry proper will be started about the middle of the month. Quite a number of expert quarrymen and cutters will be engaged. At one time this industry was a great financial feeder for Curwensville, whose payroll averaged from \$5,000 to \$8,000 per month, and the re-opening of this industry bids fair to exceed those good old days. The people generally, whether they will be employed at the quarry or not, are pleased at this impetus that will be given business in all lines.

JOHN M. HUGHES

D. W. Speck received word this morning of the death of John M. Hughes, son of Mrs. Harry E. Hughes, of Middletown, Pa., and a former Clearfield resident, which occurred at his home in Birmingham, Alabama, on Sunday last. The deceased, who was born and raised in Clearfield, was about 28 years of age. The funeral occurred at Middletown today.

Women Continually Overdo

This applies to all women, regardless of caste or color. The ambitious girl striving for school honors, the overworked housewife, the shop girl, girls in offices and stores, and the society woman, all climb too high, overtax their strength, and what follows, Nervous prostration, sleeplessness, backache, headaches, and the inevitable weakness and ailments peculiar to their sex soon develop, which, unless checked, bring on more serious conditions, and which often lead to operations. An efficient restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which is now recognized from coast to coast as a standard remedy for woman's ills.

Unready money.

Mr. Nicelpinch—"I tell you we can't get too much money in the bank. Money talks." His wife—"Yes money talks, but yours seems to have an impediment in its speech."

BUSINESS

PENNSY WORKERS BACK ON JOB

Altoona, Aug. 9.—The Pennsylvania Railroad company is gradually getting the forces in the four shop departments of the Altoona works adjusted to the new regulations. More furloughed men are being recalled and are being reinstated into positions as quickly as they can be absorbed in various shops. More men will be called to report today.

The men who have been called back to work and resumed their employment have had the pass privilege returned to them. In the majority of cases this privilege was sadly missed and was most welcome when returned.

At the Juniata shop the working force was so demoralized that it had to be practically reorganized. Sufficient men have been recalled as to resume operations in every department of the big works. In the other big departments work is moving along satisfactorily.

BRICKWORKERS RECALLED

Altoona, Aug. 9.—After being idle since April 15, the big brick plant of the Harbison-Walker Refractories company at Blandburg on the Bellwood division resumed work yesterday morning with about 150 men. It is expected that the force will rapidly be increased to normal. Coincident with the announcement that the plant is to resume comes the notice that wages are to be reduced ten per cent from those formerly paid. No strenuous objection to the cut has been met with.

In normal times the plant employs between 300 and 350 men, and it is hoped to soon have this number back at their work. The Blandburg plant manufactures fire brick chiefly, the product being shipped to distant points, with much of it used in the steel industry. The increase in the steel business has correspondingly helped the Blandburg industry. The reopening of the brick plant will also greatly increase traffic on the Bellwood division. Aside from the brick business Blandburg's only other industry is coal mining and as this has been practically closed down for a long time the town has received the reopening of the brick plant news with delight.

WILL PAY FARM BOYS TO GO TO COLLEGE

"Will it pay me to send my boy to college?" is a question that many Clearfield County farmers are asking themselves these days, and in the same way the boys are probably worrying over the problem of "Do I want to go to college, and what course would I pursue if I go?"

"There is only one answer to the father's question, and that is certainly in the affirmative," says County Agent W. C. Sterrett who considers this an important problem among the many in which he is frequently called upon for advice. "The boy who has helped on the farm all his life is certainly deserving of a college education. The investment, particularly if the boy comes back to the farm, will be the best a father can make. The old idea that the colleges draw the farm boy to other professions in the cities does not apply to the agricultural colleges, for the opportunities for the farm-reared boy are among the most brilliant today. Eighty per cent of the graduates of the Penn State agricultural school are today following strictly agricultural pursuits."

Every boy on a farm in Clearfield County who is a high school graduate should seriously consider going to college, and give first thought to an agricultural course, the County Agent declares. Backed by a life-time experience, no agricultural college graduate with good standing is forced to look for a good paying job these days. There is a constant demand for farm managers, dairymen, poultrymen, herdsmen, creamery superintendents, vocational teachers, county agents, etc. And of course there is the great and only opportunity of coming back home and working the "Old Farm" or a neighboring one. Mr. Sterrett announces there is still time to enter the Freshman class in agriculture at Penn State, and he will gladly discuss the question of "going to college" with any father or son desiring additional information.

GOODYKOONTZ KNOCKS 'EM COLD

Congressman Wells Goodykoontz of West Virginia was directly responsible in saving to the Treasury the definite sum of \$2,500,000, and probably several more millions. A bill was under consideration in the House appropriating the former sum as part payment of certain claims by radio companies growing out of alleged infringements of their patents by the Government during the war. It was asserted that the whole claim would run into several millions, the total to be later determined by an interdepartmental radio committee. Mr. Goodykoontz contended that it was never the intention to have the special session of Congress give consideration to miscellaneous war claims, and described those covered by the bill as being "thin as air and weak as skimmed milk." The Congressman has little patience with those who seek to recover money from the Government because of the use of patents that helped to win the war. "A gentleman suggested," said he, "that if these patent holders had not come forward with their inventions and patents the Government could not have operated and we would not have won the war. I will say that if they had not come forward they ought to have been hanged." After the Congressman's impassioned denunciation of the bill and the appropriation that it carried, the House adopted without a roll call his motion to strike out the enacting clause. In other words, the measure was killed.

St. Louis Times.—It is just beginning to dawn on some people how many things the Versailles Treaty did not settle.

Figures compiled by the Pennsylvania Department of Forestry indicate that the Commonwealth has made a net gain of more than \$4,750,000 on its investment in State forests. The statement shows the total purchase price of the 1,125,611 acres now handled by the Department of Forestry was \$2,545,134.65.

Since 1898, when the Department of Forestry began purchasing forest land, there has been expended for administration development, and improvement \$4,702,155.96, making the total investment and expenditures \$7,247,290.61.

It is estimated that the State forests are now worth about

THE BUSINESS MAN'S BANK

While its service is so flexible as to suit the requirements of any customer, the County National is primarily a commercial bank.

Its connections with the great banks in the cities, and through them with the entire World enables it to give the business man any service he may need.

Its large invested capital and resources make it possible in practically all cases to lend customers as much as they require.

Many of the progressive business concerns of Central Pennsylvania find County National Service entirely satisfactory.

You are invited to test it.

The County National Bank
Of Clearfield

The Oldest Bank in Clearfield County

twelve million dollars, consequently the net gain has been \$4,752,709.59. Commenting on this profit, Chief Forester Pinchot said it shows conclusively that the State's forest holdings are an investment and not an expense to the Commonwealth.

The financial statement showed further that the Department of Forestry has paid for road, school and county taxes \$616,040.17 to the counties in which the State forests are located.

A GRADUATE'S COMPLAINT

Editor Progress:

Twice during the past few weeks young men from out-of-town have called at my home and solicited subscriptions to magazines, in each case telling similar stories of "votes" or "points" needed by them in order to win a scholarship to some unnamed college. As a University graduate who had to work, and work hard, for the larger part of his college expenses, and in the interest of those worthy fellows who have bona fide intentions of working their way through college, I protest against the imposition and deception practiced by most of the boys soliciting subscriptions who use the "college scholarship" story as a means of gaining patronage through sympathy.

I know whereof I speak when I say that almost without exception the boys who compose these traveling crews never went to college, never intended to go to college, and in most cases never completed high school. In both Pittsburgh and Philadelphia there have been, and are, central agencies which advertise for "young men with high school training, willing to travel, make big money," and the most likely looking are sent out with crew managers into the smaller cities and towns, each trained and coached to tell the "college scholarship story."

I personally know of one young man who has pursued this line of endeavor continuously for over two years, and has had average earnings of over \$50 per week as the result of his proficiency in gaining the sympathy of the good wives of Eastern and Central Pennsylvania. The last text books his chap studied were those of the high grade.

It is true that so-called Scholarship

Prizes are awarded each month to the boys turning in the most subscriptions, but this prize is in cash and regarding its use no stipulations are made and no questions are asked.

Should you doubt the truth of my statements I suggest that when next you are approached with this "sob story" you question the young man concerning the details of his education and his business, and ask to see evidence that he has attended college or has room and tuition reserved for the coming college year.

It has been my pleasure to know a great many fine young students who canvassed during the summers with aluminum ware, cereals, magazines or books in order to earn their college expense, but I have yet to know of one who was so lacking in pride and so void of finer sensibilities as to sell his wares through sympathy, it invariably being the case that the quality and merits of the article offered were the sole talking-points of the bona fide college man.

I bear no brief against these young men who are working hard for their commissions and prizes, and I acknowledge the worth of the magazines usually offered, but I reiterate my protest against the common and deceitful use of the "scholarship" tale, this falsehood handicapping and putting in a bad light those worthy and ambitious students who through similar pursuits earn the money to finance their educations.

I venture to add that I do not doubt but what any of the several deserving persons in our own town who solicit subscriptions for magazines can supply combination and terms equally as attractive and economical as offered anywhere.

GRADUATE.

WAGE PROBLEMS WILL BE PLACED BEFORE MINERS

Indianapolis, Indiana, August 9.—When the biennial convention of the United Mine Workers of America meets in Indianapolis on Tuesday, September 20, the outstanding business of the delegates will be the formulation of demands for the next wage contract between miners and operators. For the first time in many years the wage agreements in the bituminous fields and in the anthracite fields will expire on the same day, March 31, 1922. Heretofore, the bituminous wage agreement expired on one date and the anthracite agreement on another date, and the miners in one branch of industry were not in position, therefore, to give the same degree of support to the other in the negotiation of their agreements as they will be next spring.

John L. Lewis, international president, has made the statement on several occasions that the United Mine Workers of America will not permit any reduction in the wages of the mine workers, and this fact lends greater significance to the coming convention at which the details of the wage policy of the miners' union will be worked out and ratified.

It has been the custom of the anthracite miners in the past to frame their wage demands and have them adopted by a tri-state convention, comprising the three anthracite districts, after which they were reported to the national convention of the union for approval. This year, however, this procedure has been reversed. Anthracite delegates to the national convention will prepare their demands for approval by the national convention and the tri-district convention for ratification will be held afterward. Thus, any general policy with reference to wages that may be adopted by the national con-

vention, will govern the miners in their negotiations in the anthracite region as well as in the bituminous fields of the country. Ellis Searles, editor of the United Mine Workers' Journal, said today that all other questions to come before the national convention will be subordinate to the one great proposition of preparing for the negotiation of wage scale agreements in the bituminous and anthracite branches of the industry.

The number of delegates to attend the convention this year will be smaller than that of two years ago, when the convention was held in Cleveland. At that time there were 2,044 delegates. This year the number will be approximately 1,500. At the Cleveland convention action was taken favoring nationalization of mines, and the adoption of the six hour day and the five day week. These same subjects will undoubtedly come before the September convention for further action.

Guid Conceit o' Himself.

Mother was telling her caller how she had sent one of her six-year-old boy's bright remarks to a newspaper and received a dollar for it, when the little fellow entered the room. Overhearing her, he said: "Mother, if you'll just listen to all I say and send it to the paper you'll make enough to support the whole family." — Boston Transcript.

IS WORTH WEIGHT IN GOLD TO HER

Erie Woman Restored To Health By Tanlac After Suffering For Ten Years.

"In just a month's time Tanlac has rid me of troubles that had followed me for ten years," was the remarkable statement made by Mrs. W. H. Ewer, of 24 West Third street, Erie, Penna.

"The ten years previous to the time I began taking Tanlac was a period of almost unbroken misery for me on account of what I suffered from indigestion, rheumatism and other troubles. I had no relish for food of any kind and even the little I did eat always made me miserable for hours afterward.

"Every joint and muscle ached with rheumatism. I could hardly walk and it was next to impossible for me to raise my hand above my head. I couldn't find any medicine that did me any good, I was steadily losing in weight and all my strength was leaving me.

"Well, I have just finished my third bottle of Tanlac, and I feel like a different person altogether. I can eat heartily now and everything agrees with me and I am gaining steadily in weight and strength. I never feel a rheumatic pain and, in fact, all my ailments have left me. Tanlac is simply worth its weight in gold."

Vanishing Languages.

Nowhere in America has there been such a diversity of Indian languages as in California. But these languages are now rapidly disappearing. Several of them are known only by five or six, and others only by twenty or thirty living persons, and hardly a year passes without some dialect, or even language, ceasing to exist through the death of the last individual able to speak it. Efforts are being made to record all these languages for the sake of the light they throw on the ancient history of the Pacific coast.—Washington Star.

A Fortunate People.

An English scientist has discovered evidences which lead him to believe the Romans burned coal. The evidence, while interesting, is incomplete. So far it has not been shown that the Romans had any strike problems.—Kansas City Star.

Peach Stones Good Fuel. Peach stones, it has been discovered in California, burn as well as coal, and give out more heat in proportion to weight. The stones taken out of the fruit that is tinned or dried are collected and sold for this purpose.

RECENT FILM DEVELOPMENTS

By Charles Beahan

"THE GREAT MOMENT"

Elinor Glyn's maiden photoplay (she would wish it so called, we are sure) is, according to the orthodox pattern of the cinema, a best seller de luxe. The profession no doubt proclaims it so today, and the box office will furnish support for many months to come. One of the principal reasons that it possesses this enviable quality is that Elinor Glyn's is a hand practiced at giving the public, what the producers have discovered, it will take in large quantities. She has been writing such photoplays to, these many years, calling them novels. It is no wonder she could turn the trick with the first essay in the studios. An enumeration of the contents of "The Great Moment" (it is the same moment that occurs in every movie, usually at the end) will perhaps be the best index of its qualities. There are:

One daughter of a duke, with gypsy blood in her, from her mother, which accounts for her wild ways.

One compromising situation, unexplained, and one annulled marriage the next day, equally unexplained.

Two unbridled revels, one in St. Petersburg, and one in Washington, the latter winning hands down.

One globe-trotting plot, from London to Nevada, and thence to Washington.

One good-for-nothing cousin, one rough and noble mining engineer, and one millionaire rotter. One guess as to which wins.

One compact and continually active scenario.

One great moment, and three or four lesser ones.

"DON'T NEGLECT YOUR WIFE"

They say it was to be expected that Gertrude Atherton, romantic historian, would write a photoplay primarily about a period and secondarily about the people in it. The background of time and place is the important thing in "Don't Neglect Your Wife."

If one can have any sympathy with a man and a woman who, because their love for each other seems hopeless of consummation, deliberately "go to the dogs," taken Mrs. Atherton's first screen play is, in all respects, a good one. For many, a love that sets both parties on a merry whirl of trying to drink themselves to death will be neither reasonable nor inspiring, but rather an earmark of the sentimental melodrama, that lurks under the crinolines and frilled shirts. Otherwise, the play is decidedly interesting and certainly well executed. The contrasting pictures of post-bellum social life in San Francisco and of low life in the notorious Five Points of New York are done with skill and understanding both on the part of the author and the director.

The acting is better than usual, and so is worthy of mention. Especially good are Mabel Julianne Scott, Lewis S. Stone, Charles Clary and Arthur Hoyt. However, we are inclined to feel had Mrs. Atherton her own way in christening her picture, she would have never inflicted upon it the terrible screen title of "Don't Neglect Your Wife."

"NOBODY"

Roland West wrote and produced this photoplay, which is a middling good murder mystery story. Once more it is the case of "Who killed Cock Robin?" and, although the excitement never runs to a high pitch, enough motives for the killing are scattered among three people to make any one of them potentially guilty, and thus to deceive all open minds up to a certain point. Suspense there is, but not a great deal, for Mr. West handled a rather commonplace situation in a commonplace way. There is a worth-while theme in "Nobody"—there is always something to be said for the under-dog—but we have outgrown this version of it. Flighty young wives who are manoeuvred into the arms of wealthy old bluebeards have grown pale for us. Their plight is not interesting any more unless the dramatists has something to say about their tragedy that is worth listening to. But Mr. West was doing a mystery story, and that precluded his saying much of anything about his nobodies.

"THE MYSTERY ROAD"

E. Phillips Openheim is the author of this piece. It is of the type of fiction known as the hot weather story, probably because it leaves the spectators quite cold. The production comes from the British studios of the Famous Players Company, and was directed by David Powell, who also takes the leading part.

The story is laid in London and Nice, and is about a young English chap who was well away to being an abandoned rake several times, only to be called back by the producer, whose aim was to play around the edges without openly offending the censor. The young fellow is engaged to Lady Susan, but he breaks engagements with her ladyship to keep up with the gambling set and to become the innocent victim of the queen gambler. Or else he almost seduces a peasant's daughter, but is frustrated by her falling in love with him. There was a great deal of this sort of plot in the novel evidently, and Mr. Powell thought it his duty to squeeze it into the film, a mistake that he is not the first to make.

Steel Derrick at Oil Wells.

Excepting one, every oil field in the world is equipped with wooden derricks. This exception is at the comparatively new fields of Trinidad, where the white ants and insects of similar appetite will quickly devour anything in the way of a piece of timber. Derricks of lumber, especially pine, are literally eaten up in a very short time. In this event it has been found necessary to make use of steel, and the many great advantages of this construction is likely to encourage the use of derricks of metal in other fields.

Wings Ready for Him.

There is some hope for the person who can laugh when he has a toothache. But the man who can laugh at you when you have a toothache is beneath words.—The Fleur de Lis.

Impartial.

An English clergyman, Father Black, spent a great deal of his time visiting prisons and trying to reform the inmates. On one occasion a house-breaker said to him gratefully: "I must thank you, sir, for what you have done for me. There was a time when I knew nothing of God or of the devil, either, but somehow you have made me love 'em both."

Theocratic Government.

Theocracy was the name given to a system of government by ecclesiastical authorities, professedly in the name of and under the direction of heaven itself. The priests claimed to rule under the immediate sovereignty of God, and the revelations announced as coming from the deity were given out as the civil law of the state. The people of ancient Israel were under such a government from the time of the Exodus until the accession of King Saul.

Peggy on the Beach

Peggy Hopkins, former chorus beauty who was sued for annulment by J. Stanley Joyce, her third millionaire husband, on the beach at Atlantic City where she has been spending vacation.

Ireland's Many Names.

Scots may be surprised, but in the days of Ptolemy Ireland was known as Scotia! In fact Ireland has had a number of names. Diodorus Siculus calls the Ireland Iris, or Irist; in the De Mundo, credited by some scholars to Aristotle, it is called Irene; in the Argonautica of Orpheus it appears as Irimus; Strabo called it Irene; Caesar, Tacitus and Pliny mentioned it as Hibernia; Mela called it Juverna. The native names in Celtic are Ir, Eri, Erin. Plutarch mentions it under the name of Ogygia.

Use for Clocks.

The small, worn-out clock can be useful in the sickroom if the face is still intact. After a dose of medicine is given the hands should be turned to denote the time when the next one is due.

Rewards.

The man who burns the midnight oil never seems to make as much money as the one who sells it.—Boston Transcript.

Gossip for Tonight's Tea Table

Miss Alice Ryan was called to her home in Newburgh, N. Y., this afternoon by a telegram announcing the death of her niece, Miss Annie Fogarty.

"Bud" Lee is a real farmer and while some people may have harvested their corn crop earlier than Bud did his, nobody raised any finer corn. We know whereof we speak because our farmer friend was kind enough today to drop on our table fifteen ears of the finest Golden Bantam corn we have sunk a tooth in in many a moon.

Must Have Sympathy.

It is hard to believe that anything is worth while, unless there is some eye to kindle in common with our own, some brief word uttered now and then to imply that what is infinitely precious alike to another mind.—George Eliot.

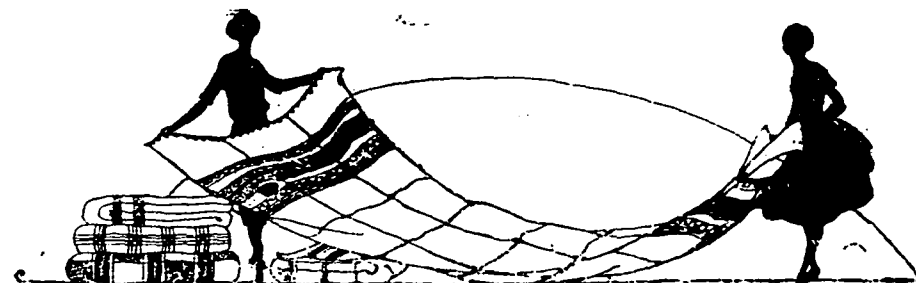

Hindle, John, farmer, Decatur.
Humphrey, Geo. B., salesman, DuBois.
Hays, E. E., farmer, Brady.
Hurd, Warren E., farmer, Newburg.
Hess, Harry, miner, Houston.
